

inHarmony Interactive Introduces the inHarmony Massage Table

*Professional Practitioners Practice
Upgraded with Vibroacoustic Therapy*

SAN DIEGO, CALIFORNIA, UNITED STATES, October 24, 2023

/EINPresswire.com/ -- The standard massage table has just received an upgrade. inHarmony Interactive is thrilled to announce the launch of the inHarmony Massage Table, an addition to the world of massage therapy and bodywork. This table enables professional practitioners to harness the power of Vibroacoustic therapy, taking their practice to new heights. This unique table creates a deeply centering mind-body experience using vibro-tactile stimulation and vibroacoustic sound, enhancing the overall massage therapy and bodywork experience.

inHarmony Interactive Introduces the inHarmony Massage Table

Craig Goldberg, Co-founder of inHarmony Interactive, expressed his excitement about the new product saying, "At inHarmony, we are committed to pushing the boundaries of what's possible in the world of holistic wellness. Our customers have been requesting a massage table that integrates vibration therapy, and we are proud to deliver it with the quality experience you have come to expect and enjoy from inHarmony Interactive products."

Unlike other solutions on the market, the inHarmony Massage Table offers a one-of-a-kind experience by seamlessly integrating transducers right into the foam through a proprietary manufacturing process. This design ensures that the energy is directed precisely to the user, enhancing the therapeutic benefits for clients. Traditional methods of attaching transducers to the bottom of massage tables risk dissipating the energy away from the client, but this updated approach is deeply immersive and an effective experience.

Key features of the inHarmony Massage Table include:

- An integrated/attached base with folding legs for portability.
- An exceptionally comfortable articulating headrest.

- Built-in high fidelity speakers for immersive sound.
- Internal accessory storage for convenient organization.
- A custom amplifier with Bluetooth connectivity, requiring only two cables for setup: one from the inHarmony Massage Table to the amplifier and one from the amplifier to the power outlet.
- Highly portable, enabling practitioners to bring the therapeutic power of sound and vibration wherever they go

"We believe that the inHarmony Massage Table will be a game-changer in the field of holistic wellness," said Craig Goldberg. "We are dedicated to providing practitioners with the tools they need to offer the most effective and transformative experiences to their clients."

The inHarmony Massage Table is effective for various bodywork practitioners including:

- Acupuncturist
- Reflexologist
- Reiki Practitioner
- Craniosacral Therapist
- Shiatsu Therapist
- Myofascial Release Therapist
- Aromatherapist
- Lymphatic Drainage Therapist
- Massage Therapist

The inHarmony Massage Table is now available for purchase, and ships starting December 15, 2023.

About inHarmony Interactive:

inHarmony Interactive is a leading provider of mindfulness and wellness solutions, dedicated to enhancing mental and emotional well-being through products and services. The company's mission is to make mindfulness accessible to people of all ages and backgrounds, empowering individuals to lead healthier, more balanced lives.
