

## Hydropower Generation Market: The Only Guide You Need | Asia-Pacific CAGR of 6%+ by Japan, South Korea, China, Singapore

Hydropower Generation Market is projected to exceed USD 317.8 billion by 2027

WILMINGTON, DELAWARE, UNITED STATES, October 25, 2023 /EINPresswire.com/ --

According to a new report published by Allied Market Research, The global hydropower generation market was valued at \$202.4 billion in 2019, and is projected to reach \$317.8 billion by 2027, growing at a CAGR of 5.9% from 2020 to 2027.

Hydropower generation, also known as hydroelectric power generation, is the process of generating electricity from the energy of moving water. It is one of the oldest and most widely

used forms of renewable energy, dating back to ancient waterwheels and mills.

"

The global hydropower generation market is expected to witness strongest growth due to rise in demand for clean energy across the globe."

Asia-Pacific dominated the global hydropower generation market with around 49.2% of the market share in terms of revenue. In addition, it is also estimated to display the

highest growth rate, in terms of revenue, registering a CAGR of 6.2% from 2020 to 2027.

**Top Companies** 

Andritz Hydro USA Inc., GE Energy, CPFL Energia S.A., Sinohydro Corporation, IHI Corporation, Alstom Hydro, China Hydroelectric Corporation, China Three Gorges Corporation, ABB Ltd, and Gerdau S.A.

Benefits of hydropower generation include its renewable nature, low greenhouse gas emissions, and its ability to provide baseload power (continuous power generation). However, there are also environmental and social considerations, such as the impact on aquatic ecosystems and local communities, which must be carefully managed.

Hydropower is a significant and sustainable source of electricity in many parts of the world, and its future development may involve improving the efficiency of existing plants, building new facilities, and integrating it with other renewable energy sources for a more resilient and ecofriendly energy grid.

The medium hydro power plant (1MW - 10MW) segment is estimated to display the highest growth rate, in terms of revenue, registering a CAGR of 30.5% from 2020 to 2027.

The large hydro power plant (above 10MW) segment dominated the global market hydropower generation with around 65.0% of the market share in terms of revenue.

Rise in demand for clean energy across the globe and to reduce the dependency on conventional fossil fuel such as coal to generate the electricity has led to set up various hydroelectric power projects across the globe.

Governments of various countries have imposed stringent environmental policies to reduce the carbon footprint.

Various developed and developing countries such as the U.S., China, and India have closed their coal power stations and have invested heavily to install new hydropower generation stations for the generation of renewable power to meet the growing energy demand.

The demand for new hydropower is expected to surge significantly across the globe during the forecast period.

Hydropower is a form of renewable energy that uses the water stored in dams, as well as flowing in rivers to create electricity in hydropower plants.

The falling water rotates blades of a turbine, which then spins a generator that converts the mechanical energy of the spinning turbine into electrical energy. Hydropower is a significant component of electricity production worldwide.

COVID-19 analysis:

COVID-19 has grown to be a global health threat, impacting a hundred and forty nations and triggering the World Health Organization (WHO) to declaring it as a worldwide pandemic.

Governments have taken severe confinement measures, including shutting down of various power generation infrastructure development programs.

About Us

Allied Market Research (AMR) is a full-service market research and business-consulting wing of Allied Analytics LLP based in Portland, Oregon. Allied Market Research provides global enterprises as well as medium and small businesses with unmatched quality of "Market Research Reports" and "Business Intelligence Solutions." AMR has a targeted view to provide business insights and consulting to assist its clients to make strategic business decisions and achieve sustainable growth in their respective market domain.

Pawan Kumar, the CEO of Allied Market Research, is leading the organization toward providing high-quality data and insights. We are in professional corporate relations with various companies and this helps us in digging out market data that helps us generate accurate research data tables and confirms utmost accuracy in our market forecasting. Each and every data presented in the reports published by us is extracted through primary interviews with top officials from leading companies of domain concerned. Our secondary data procurement methodology includes deep online and offline research and discussion with knowledgeable professionals and analysts in the industry.
