

Harvard and Now Minerva - Callus Company's Expanding Academic Partnerships

Real-World Challenges Meet Classroom Brilliance in Callus Partnerships with Minerva University

SEOUL, SOUTH KOREA, October 25, 2023 /EINPresswire.com/ -- Following its successful collaboration with Harvard University, EduTech startup Callus Company proudly announces a new alliance with Minerva University. This partnership centers around Minerva's "Civic Project" program, a cornerstone of their curriculum, designed to immerse students in hands-on, real-world challenges.

Following its successful collaboration with Harvard University, EduTech startup Callus Company proudly announces a new alliance with Minerva University.

The Civic Project enables Minerva students to collaborate with partner organizations, granting them invaluable, direct experience. Through this partnership, students will have the distinct opportunity to work alongside industry professionals at Callus Company, focusing on solving real-world challenges instead of traditional classroom tasks.

“

In my Sprint Program internship, I pitched a gut-healthy juice idea. Seeing it now in stores is so rewarding. It's not just classroom learning; it's creating real-world changes I never imagined.”

Chris Y. (11th grader, participated in microbiome startup internship)

This isn't Callus Company's first collaboration with academia. In February 2023, the company established a partnership with Harvard Business School, incorporating the "FIELD Global Immersion (FGI)" program. Through FGI, Harvard students visit Callus Company to gain hands-on experience and work on real-world projects related to EduTech business challenges.

These strategic partnerships with esteemed institutions like Harvard and Minerva underscore Callus Company's commitment to enhancing its flagship offering, the "Sprint Program." Designed for the next generation leaders, the Sprint Program offers a four-week online internship

experience for teenagers, allowing them to gain practical experience in their desired fields of study before pursuing higher education.

For teenagers ready to embark on a transformative internship journey, further details about the Sprint Program can be explored here: <https://sprint.calluscompany.com/sprints>.
