

# Missisquoi Valley School District, VT, Modernizes Improves Reporting and Transparency in Budgeting with OpenGov

*The District will have access to a more streamlined process, significantly reducing the time and resources spent on manual data entry and corrections,*

VERMONT, UNITED STATES, October 26, 2023 /EINPresswire.com/ -- Looking for

a way to eliminate manual processes and improve reporting, the Missisquoi Valley School District in Vermont was looking for a more streamlined and transparent budgeting solution. Its search led to [OpenGov](#), the leader in cloud software for our nation's school districts.

As a vital system serving a thriving community in Vermont, the Missisquoi Valley School District was seeking a solution to simplify its complex capital planning and enhance clarity in financial reporting. In its search, the District wanted a budgeting tool that could provide both ease of report creation and improved transparency for the board and other stakeholders. [OpenGov Budgeting & Planning](#) stood out for its ability to address these needs, providing a tailored solution to modernize the District's financial management.

With the adoption of OpenGov Budgeting & Planning, the Missisquoi Valley School District is set to make modern improvements to its budgeting processes. The District will have access to a more streamlined approach to budgeting, significantly reducing the time and resources spent on manual data entry and corrections. Additionally, the new system's enhanced transparency and easy-to-understand reports will help foster better communication and trust between the District and its board, helping align financial strategies with the District's goals.

The Missisquoi Valley School District joins thousands of public sector organizations leveraging OpenGov to revolutionize work processes with cloud-based software designed specifically for the needs of government.

## About OpenGov

OpenGov is the leader in modern cloud software for cities, counties, state agencies, school districts, and special districts. With a mission to power more effective and accountable government, OpenGov serves thousands of public sector leaders and their organizations. We are

built exclusively for the unique budgeting and planning, accounting, permitting and licensing, procurement, and asset management needs of the public sector. The OpenGov Cloud makes organizations more collaborative and efficient, enabling best-in-class communication with stakeholders and your community.
