

# Enciris Adds 4K Compositing Features to Entire LT-300 Family

*Easy to use features roll-out in software update*

GAILLAC, OCCITANIE, FRANCE, October 26, 2023 /EINPresswire.com/ -- Enciris Technologies has extended the functionality of the 4K-compatible LT-300 series of Capture Cards to include new [compositing](#) features, allowing easily arrangement of two, three or four captured video inputs. Applications for compositing include video wall, 3D or other medical and industrial applications, where it is useful to be able to combine multiple incoming video sources into a single output stream.

The LT-300 products also include overlay features for text, shape(s) and image(s) with alpha blending, allowing image-injection of overlays, templates and text onto the incoming video via the direct output.

The new compositing features are available via a free software-update ☐, contact Enciris for details.

LT-300 series input options:

LT-311: 4x [SDI](#) In, 1x [HDMI](#) Out

LT-312: 2x HDMI In, 1x HDMI Out

LT-313: 2x SDI In, 1x HDMI In, 1x HDMI Out

LT-313, 4K Video Capture Card with 2x SDI Inputs and 1x HDMI Input. 1x HDMI Output.

LT-312, 4K Video Capture Card with 2x HDMI Inputs. 1x HDMI Output.
