Share with us the process of writing your first-ever single "Late August". How long What it take you? What is it like working with Rasec Marc Ortega?

The Title of my first single is

"Late August". It's about my friend who met in school, She was so sweet and we loved to hangout during our recess and after school, but one day she started to ignore me and felt like she didn't want me to be around, so thought of why not make a song about what I've experienced. Most people would relate to this song. Wrote this last year actually, and added some new lines later this year (2023) to improve my song.

My family met my amazing music producer Rasec at one of my events. It's a quick and uncomplicated process to work with him. The first thing he did was rearrange some lines and add new ones - the result was better than ever expected! emailed him a video of me playing the piano while singing my original song. A week later, went to Rasec's studio and recorded my first song. He produced the instrumental and we added some beautiful harmonies. I'm so elated and excited that can finally put my music out into the world.

Ysabella, you have performed in one of the biggest venues singing the U.S. National Anthem "Star Spangled Banner" Share with us your experience.

It was an amazing experience!!!

Ever since I was a little girl, it's been a dream of mine to perform in front of a big crowd. Even remember drawing a picture of a girl hand holding a bouquet and wearing a Lakers Jersey when I was 7! I'm so proud of myself for making this dream come true. It just goes to show that if you work hard and never give up, you can achieve anything you set your mind to

What is Filipino-American means to you?

Filipino-Americans are a diverse group with our own unique culture, language, traditions, and values.

A culture that is a mix of both Filipino and American influences. Proud to honor and showcase our talents, identities, and heritage.
