

Arizona College of Nursing and the City of North Miami Sponsor Free Bexa™ Breast Exam Event

Innovative technology provides breast exams that are quick, radiation-free and painless

PHOENIX, ARIZONA, UNITED STATES, October 27, 2023 /EINPresswire.com/ -- [Arizona College of Nursing](#) is partnering with the [City of North Miami](#) and [Bexa](#) to provide free breast exams to residents of North Miami on October 28.

“Arizona College of Nursing is thrilled to be a sponsor of this event that not only addresses a crucial healthcare need but also serves as an opportunity for our students to serve their community, said James Jones, Campus President, Arizona College of Nursing, Fort Lauderdale.” “We believe in the power of education and service. Our students are committed to impacting the lives of others, and this event allows them to put their knowledge into action while embodying the values of our institution.”

“

Arizona College of Nursing is thrilled to be a sponsor of this event that not only addresses a crucial healthcare need but also serves as an opportunity for our students to serve their community”

Campus President, James Jones

The Bexa FDA-approved medical device differs from the traditional breast exams that some women find invasive, uncomfortable, or painful. Bexa is a portable, handheld sensor that is moved gently over the breast and underarm area, much like in an ultrasound. The exam typically lasts 15-20 minutes, and accurate results are immediate. Additionally, the exam is radiation-free, making it entirely safe for pregnant and breastfeeding women.

“Raising awareness and early detection is key in the fight against breast cancer,” said Cassandra Timothe, Councilwoman, North Miami, District 2.

North Miami

“However, many women are uninsured or underinsured and cannot access preventive healthcare programs. The City of North Miami is excited to partner with Arizona College of Nursing and the Bexa Equity Alliance to help close this gap and provide these critical screenings to our community.”

The all-day screening event will be held from 9 a.m. – 5 p.m. EST on Saturday, October 28, at the North Miami Public Library, 835 NE 132 Steet, North Miami. All exams will be conducted by American Registry for Diagnostic Medical Sonograph (ARDMS) ultrasound technicians who are specially trained in using the Bexa Device.

Arizona College of Nursing students have been actively canvassing the North Miami neighborhood, spreading awareness, and encouraging registration. On the event day, the nursing students will be present from start to finish, offering their assistance wherever needed. With cold and flu season around the corner, they will also provide information on flu shots, pneumonia, and other preventive measures that can contribute to overall well-being.
