

# AVer Earns “1.5°C Climate Control Target” Certification for Exemplary Sustainability

ROTTERDAM, THE NETHERLANDS, October 27, 2023 /EINPresswire.com/ -- AVer Information Europe B.V., an award-winning provider of video collaboration and education technology solutions, has been awarded the “1.5°C Climate Control Target” Certification. The certification is awarded by the Commonwealth Magazine using the Temperature Rising Index for Pathways (TRIPs) Evaluation. The “1.5°C Climate Control Target” Certification commends AVer’s commitment to the Paris Agreement’s 1.5°C target.

CommonWealth Magazine, Tunghai University, and other industry partners established the TRIPs Evaluation, assessing the [sustainability](#) reports of 725 Taiwanese enterprises. Only 94 businesses obtained scores that comply with the Paris Agreement’s 1.5°C target, and AVer is honored to be listed amongst them, demonstrating resolve to reach net-zero carbon emissions.

"Sustainability is not just a commitment; it's a responsibility we embrace wholeheartedly at [AVer Europe](#). Our journey towards a greener future is driven by our passion for innovation and our unwavering dedication to making a positive impact on the world".  
- Rene Buhay, SVP Sales & Marketing, AVer Europe

AVer has long regarded [ESG](#) as crucial in the company’s development, not only actively participating in net-zero initiatives such as taking inventory of AVer’s carbon emissions. With the base year of 2021, AVer intends to reduce carbon emissions by 10% each year in order to achieve carbon neutrality by 2030 and net zero by 2050, contributing to a sustainable future for future generations.

For more information on AVer’s ESG initiatives, please see <https://www.aver.com/page/corporate-social-responsibility>
