

# Global Animal Feed Inactive Yeast Market Set to Reach \$186.81 Billion by 2027, Demonstrating a CAGR of 4.8%

*The Business Research Company's Animal Feed Inactive Yeast Global Market Report 2023 – Market Size, Trends, And Global Forecast 2023-2032*

LANDON, GREATER LONDON, UK, October 30, 2023 /EINPresswire.com/ --

The global [animal feed inactive yeast market](#), currently valued at \$145.95 billion in 2022, is anticipated to reach \$154.61 billion in 2023, demonstrating

a 5.9% compound annual growth rate (CAGR). The market growth has been influenced by the Russia-Ukraine conflict, leading to economic sanctions, increased commodity prices, and disruptions in supply chains, consequently causing inflation across various sectors. Despite these challenges, the animal feed inactive yeast market is expected to continue its upward

trajectory, projected to hit \$186.81 billion by 2027, with a CAGR of 4.8%.

The animal feed inactive yeast market is expected to reach \$186.81 billion in 2027 at a CAGR of 4.8%."

Leveraging Increasing Meat Consumption for Market Growth

The escalating consumption of meat globally has become a key driver for the animal feed inactive yeast market, with the supplement playing a crucial role in enhancing the

nutritional value of animal feed. With its inclusion in livestock production, animal feed inactive yeast serves as a nutritional supplement, contributing to the overall health and performance of livestock and subsequently improving the quality of meat. Notably, statistics from the Australian Bureau of Statistics indicate significant increases in beef and mutton production, underscoring the growing demand for animal feed inactive yeast.

For detailed insights, explore the sample report on the global animal feed inactive yeast market:

## Market Segmentation and Key Players

1. Form: Powder, Flakes, Tablet, Capsule
2. Nature: Organic, Conventional
3. Sales Channel: Business-To-Business (B2B), Business-To-Consumer (B2C)
4. Application: Poultry, Swine, Cattle, Aquaculture, Pet Food, Other Applications

Key players driving product innovation and advancements in the animal feed inactive yeast market include Cargill Inc., The Archer-Daniels-Midland Company, Lallemand Inc., and DSM Nutritional Products AG, among others. These industry leaders are actively engaged in developing innovative products to sustain their market positions, offering specialized solutions that contribute to the improved health and performance of livestock.

## Innovative Solutions Enhancing Livestock Health

Innovative product offerings, exemplified by Lallemand Inc.'s YELA PROSECURE, highlight the industry's commitment to creating high-quality and functional nutrients that support animal performance, digestive care, and feed palatability. This innovative hydrolyzed yeast product is designed to enhance nutrient digestibility, improve gut health, mitigate the risk of disease, boost growth rates, and enhance feed conversion efficiency, thus ensuring improved animal health and productivity.

## Asia-Pacific Emerging as the Key Market Region

With Asia-Pacific leading the animal feed inactive yeast market in 2022, the region remains a significant player in the industry's growth trajectory. The comprehensive report provides insights into regional dynamics, emerging trends, and market opportunities across key geographical segments.
