

# Yes! Trees Tree Service's Phenomenal 70% Growth with Tree Leads Today, Anchored in a Commitment to Sustainability

MAPLE GROVE, MINNESOTA, USA, November 2, 2023 /EINPresswire.com/ -- Yes! Trees Tree Service, a prominent tree service company based in Maple Grove, MN, continues to thrive through its partnership with Tree Leads Today (TLT) while also showcasing the dedication to excellence within its team. This collaboration has brought about a remarkable 70% increase in leads for Yes! Trees, fostering substantial business growth without the need to hire additional crews.

Lance Gardner, CEO of Yes! Trees Tree Service, expressed his satisfaction with the TLT partnership and paid tribute to one of his team members, stating, "TLT has increased our leads by 70%, and our business has grown by 70%. We have not had to hire additional crews, which is a testament to the efficiency of the partnership and our foreman, AL here at Yes! Trees. AL has been in the tree industry for 25 years and we are blessed to have him on our team as he is considered to be one of the top grounds men in the state! Safety for his crew is his number one priority. We are comfortable with entrusting him that things on jobsites run smoothly."

One of the key advantages of this collaboration is the efficiency it brings to Yes! Trees' operations. Gardner continued, "Our estimates are 100% more efficient. We like the way the leads flow to us in the form of phone calls instead of just an email with contact info. We feel we have a very friendly and knowledgeable assistant who people feel comfortable with when they call. This is a more personal interaction than just emails or contact requests from customers."

In addition to its commitment to providing top-quality tree services and harnessing the expertise of its team members, Yes! Trees Tree Service has also taken a significant step toward environmental sustainability. The company is proud to announce its partnership with one of Minnesota's top environmental nonprofits, Great River Greening. Yes! Trees' donation to Great

River Greening is aimed at supporting the restoration and stabilization of shorelands and ravines, ecological inventories, restoration management plans, and the planting of native trees, shrubs, wildflowers, and grasses.

CEO Lance Gardner highlighted the importance of this partnership, saying, "Since our founding, we have felt strongly about the direction our planet is heading in terms of environmental sustainability. We believe that, as a society, we are lacking in protecting and reviving our natural resources. When you work with Yes! Trees, not only are you cleaning up your property and maintaining its beauty, but also contributing to the protection of our most valued native lands."

Yes! Trees Tree Service's partnership with Tree Leads Today, dedication to safety, and its commitment to environmental sustainability mark a significant step forward for the company, showcasing its desire to provide outstanding tree services, foster professional growth, and make a positive impact on the environment.
