"CanAm Scientific strongly believes that this technology will change the lives of thousands upon thousands of men in the GCC. The preservation of a man's quality of life and the minimally invasive approach of the Sonablate HIFU perfectly align with the type of legacy CanAm Scientific wants to create in the region," said Anthony Travonti, CEO of CanAm Scientific. "Our strategic partnership with CMC, alongside the extensive expertise of local partner Albwardy Investment Group, underscores our commitment to mutual growth, innovation and collaboration between

nations, pioneering the advancement of health care technologies," added Travonti.

"We are excited to partner with CanAm Scientific to introduce the groundbreaking HIFU technology to CMC Hospital Dubai, bringing the latest advancements in prostate disease treatment to this region," said Mr. Abdulrahman Abdulaziz Khansaheb, Chairman of CMC Hospital Dubai.

"Sonablate Robotic HIFU is proud to be partnering with a globally recognized institution like CMC Hospital Dubai to bring this industry leading focal therapy to the Urologic community in the U.A.E. The highly skilled Urology team at CMC, headed up by market leading surgeon Dr. Madi, will once again bring innovative and life improving technologies to Dubai and the entire GCC region," said Alex Gonzalez, Chief Commercial Officer of Sonablate, Corp. "Image guided focal therapy is one of the hottest topics in urology and we have seen a significant amount of interest from patients demanding access to this quality of life preserving technology" added Gonzalez.
