“We recognized Stillwater RV Park as a hidden gem with enormous potential with the beautiful artesian well,” said Kevin Barnett, CEO. “We can’t wait to see the ways current and new campers will enjoy all of the hard work and investment we are putting into this one-of-a-kind RV park.”

Central to The Freedom Group's philosophy is the concept of a "Community Redefined." Through surveys, social media engagement, and direct feedback, residents will have an active role in shaping the future of their vacation community.

Improvements will also be made to the communications between park management and guests. Stillwater RV Park will now have a website with 24/7 live chat, easy-to-use forms as well as

standard email and phone with text messaging capabilities. The website allows campers to make online payments, schedule tours, and manage their account.

Cost increases can be expected and current guests with active leases will experience a seamless transition. Personalized meetings have been initiated to ensure every resident is informed and comfortable with the upcoming changes and pay range options based on location of the park.
