

City of Sweet Home, OR Boosts Efficiency and Transparency by Growing Partnership with OpenGov

OREGON, UNITED STATES, November 2, 2023 /EINPresswire.com/ -- Looking for an online portal where the public can report problems and the ability to show Council and the public the results from the Public Works team, the City of Sweet Home, OR needed a modern solution to streamline its operations. The City chose to expand its current partnership with [OpenGov](#), the leader in cloud software for our nation's cities.

Nestled in the scenic landscape of Oregon, the City of Sweet Home aspired to improve data-sharing across critical departments, including code compliance and public works. Known for its ability to manage code compliance, provide public-facing, user-friendly portals, and track efforts with a map-based work order management system, OpenGov perfectly aligned with its needs.

With the implementation of [OpenGov Permitting & Licensing](#) and [Cartegraph Asset Management](#), the City of Sweet Home can anticipate transformative changes. This strategic move empowers them to manage code compliance, offer public-facing portals, and efficiently track resident requests, significantly improving public services. The City aims to be more data-driven and efficient, saving valuable staff time, and ultimately enhancing the community's quality of life.

The City of Sweet Home joins thousands of public sector organizations leveraging OpenGov to revolutionize work processes with cloud-based software designed specifically for the needs of government.
