

# Safe Choice Tree Service: Rooted in Quality and Growth with Exclusive Tree Care Marketing

PLANT CITY, FLORIDA, USA, October 31, 2023 /EINPresswire.com/ -- Safe Choice Tree Service, a family-owned and operated tree care company, is celebrating remarkable growth and success through its partnership with Tree Leads Today (TLT). Based in Plant City, Florida, Safe Choice Tree Service, under the leadership of Jonathan Valentine, has harnessed the power of exclusive leads from TLT to expand its operations and enhance its efficiency.

In a rapidly growing tree care industry, Safe Choice Tree Service has distinguished itself as a trustworthy and reliable provider of arborist services. The company operates primarily in Plant City, Brandon, and Valrico, serving Hillsborough County.

Jonathan Valentine, the owner of Safe Choice Tree Service, attests to the substantial impact of TLT on his business. He expressed, "TLT has been keeping us steady and the phone ringing these past years. If I need more leads, I just call Cindy, and she makes it happen. It's been great." The partnership with TLT has not only provided a consistent flow of leads but has also enabled the company to invest in additional staff and equipment, ultimately increasing their efficiency.

Safe Choice Tree Service is no stranger to the challenges and responsibilities of tree care, having served the community for seven years. The company is deeply committed to the health and beauty of trees and strives to provide top-quality tree care services. Mr. Valentine noted, "We are a 4th generation family-owned and operated tree care company. Our team of experienced and certified arborists are dedicated to helping our community maintain the health and beauty of our trees and strive to provide quality tree care and service." The commitment to quality and safety is evident in their BBB accreditation with an A+ rating, fully insured status, and the possession of a crane operator license (COL).

The equipment arsenal at Safe Choice Tree Service is comprehensive, ensuring that they are equipped for any task. From cranes to tractors and bucket trucks, the company's inventory has it all. The highly experienced crew, some of whom have been with the company for many years, works efficiently to deliver on the company's services, which include tree removals, trimming, pruning, and assessments. In addition to regular tree care services, Safe Choice Tree Service offers 24/7 emergency services and storm damage cleanup.

One of the remarkable advantages of TLT's exclusive leads is geo-targeting, which significantly enhances efficiency.

Mr. Valentine elaborated, "Since it's usually all in one area, we have no issues going from one lead to the next. We can knock out jobs much faster and it cuts the travel/drive time down by half." The geographic concentration of leads allows the company to optimize its operations and serve clients with speed and precision.

Mr. Valentine particularly values phone calls as leads, as they enable direct communication with clients. He highlighted, "Calls are best – because we connect directly with the client, can hear what they need, and can schedule the appointment right on the spot; I also like that they are recorded so I can go back and listen to the recording if I miss some information."

For homeowners, Mr. Valentine emphasized the importance of tree maintenance. "Trees require careful attention and maintenance to ensure they are healthy, attractive, and safe, especially being impacted regularly by hurricanes and thunderstorms. It's crucial to hire a professional tree service company to help you maintain your property's trees and keep them healthy."

The success of Safe Choice Tree Service exemplifies the transformative potential of exclusive tree care marketing and leads in the tree care industry. As the company continues to grow and thrive, it remains a testament to the value of providing top-quality tree care services to the community.
