

WebAppRestaurant Launches Online Ordering with 0% Commission on All Orders for Restaurant

With this new system, restaurant owners can keep 100% of their earnings, change menus without restrictions, and regain full control of their operations.

SEATTLE, WASHINGTON, UNITED STATES, November 1, 2023
/EINPresswire.com/ --

WebAppRestaurant, a leading provider of online restaurant solutions, has launched a groundbreaking initiative that [empowers restaurants](#) to accept online orders at zero commission. With

this new system, restaurant owners can keep 100% of their earnings, change menus without restrictions, and regain full control of their operations.

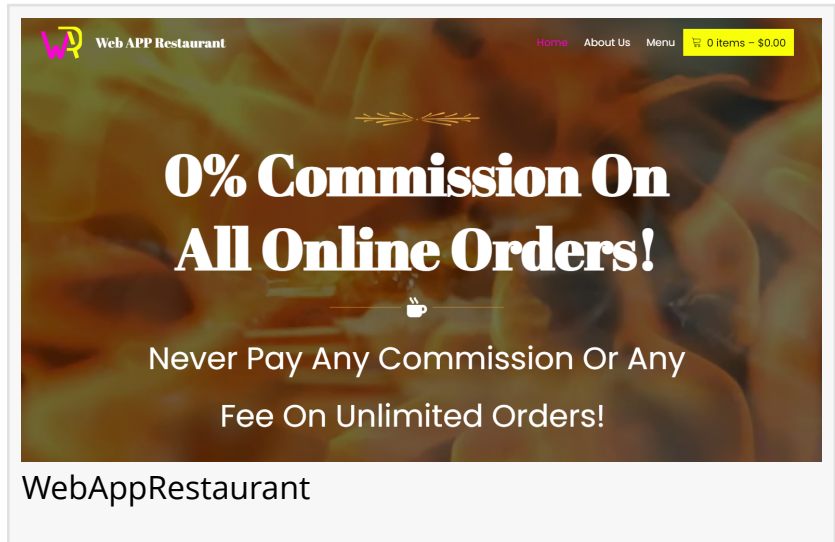

In an era where online ordering has become a staple for restaurants, the industry has faced challenges due to the hefty commissions imposed by third-party platforms. These commissions can significantly eat into a restaurant's profits, limiting their ability to thrive.

WebAppRestaurant's new system eliminates this burden entirely. Restaurant owners can now enjoy the benefits of online ordering without the financial strain of commission fees. With 0% commission, they keep every dollar they earn from online orders.

Key Features of WebAppRestaurant's 0% Commission System:

Complete Online Ordering and Delivery System: This system provides restaurants with a comprehensive solution for online ordering and delivery. There are no extra third-party fees involved, allowing restaurant owners to take control of their delivery operations.

No Restrictions from Third-Party Platforms: Unlike traditional third-party platforms, WebAppRestaurant's system gives restaurant owners the freedom to set their own menus and prices without interference.

Complete Native App for Restaurants: The system includes a complete app for both iPhone and Android devices, making it easy for customers to place orders and reservations.

Reservation Management: Restaurants can take reservations directly on their website, streamlining the booking process for diners.

Food Delivery Setup: With this system, restaurants can set up their own food delivery service, providing customers with a seamless ordering and delivery experience.

Coupon and Discount Support: Restaurant owners can offer coupons and discounts to attract and retain customers, boosting their sales and customer loyalty.

Gift Card Sales: The system allows restaurants to sell gift cards, increasing revenue and encouraging repeat business.

Advanced Analytics: WebAppRestaurant provides advanced analytics and site traffic monitoring tools, giving restaurant owners valuable insights into their online performance.

WebAppRestaurant's commitment to empowering restaurants with this 0% commission system underscores its dedication to the success of the restaurant industry. With this innovative solution, restaurant owners can embrace online ordering without the financial constraints imposed by third-party platforms.

For restaurant owners looking to take control of their online ordering and delivery operations while keeping 100% of their earnings, WebAppRestaurant's system is the ideal choice.
