St. Jude Children's Research Hospital®:

St. Jude Children's Research Hospital is leading the way the world understands, treats, and defeats childhood cancer and other life-threatening diseases. Its purpose is clear: Finding cures. Saving children.® It is the only National Cancer Institute-designated Comprehensive Cancer Center devoted solely to children. When St. Jude opened in 1962, childhood cancer was largely considered incurable. Since then, St. Jude has helped push the overall survival rate from 20% to more than 80%, and it won't stop until no child dies from cancer. St. Jude shares the breakthroughs it makes to help doctors and researchers at local hospitals and cancer centers around the world improve the quality of treatment and care for even more children. Because of generous donors, families never receive a bill from St. Jude for treatment, travel, housing, or

food, so they can focus on helping their child live. Visit St. Jude Inspire to discover powerful St. Jude stories of hope, strength, love, and kindness. Support the St. Jude mission by donating at stjude.org, liking St. Jude on Facebook, following St. Jude on Twitter, Instagram, LinkedIn and TikTok, and subscribing to its YouTube channel.
