

Rising Awareness of Plastic Pollution Driving Growth in Waste Recycling Services Market

The Business Research Company's Waste Recycling Services Global Market Report 2023 – Market Size, Trends, And Global Forecast 2023-2032

LANDON, GREATER LANDON, UK, November 2, 2023 /EINPresswire.com/ -- The <u>global waste</u> recycling services market, projected to expand from \$54.75 billion in 2022 to \$57.69 billion in

The market size of the global waste recycling services is expected to grow to \$71.39 billion in 2027 at a CAGR of 5.5%."

The Business Research
Company

2023 at a compound annual growth rate (CAGR) of 5.4%, is expected to witness sustained growth, reaching \$71.39 billion by 2027. The growing consciousness about plastic pollution has emerged as a key driver, propelling governments worldwide to implement stringent policies and initiatives aimed at mitigating the adverse effects of plastic waste on the environment. Such initiatives have fostered increased awareness and propelled the adoption of waste recycling services across diverse sectors.

Market Segmentation and Key Players

- Waste Type: Compost and Food Waste, Glass and Fiberglass, Metal Scraps, Waste Paper, Other Types
- Application: Municipal, Agricultural, Construction, Industrial, Other Applications
- Service: Collection Service, Disposable Service

Leading market players such as Republic Services, Clean Harbors, and Rubicon Global have been instrumental in fostering technological developments within the waste recycling domain, driving the adoption of innovative solutions that aim to convert waste into usable energy and recover valuable resources from diverse waste streams.
