The Global eLearning Market Size is estimated to register 15.9% growth over the forecast period from 2023 to 2030.

Definition:
The eLearning market was a rapidly growing sector encompassing various segments, including K-12 and higher education, corporate training, and skill development. It was characterized by technological advancements such as AI, VR, and mobile learning, offering a wide variety of content types and personalized learning experiences. Key players included Coursera, edX, Udemy, and LinkedIn Learning, among others. The pandemic significantly accelerated its growth, leading to a surge in demand for online education and training. Despite its rapid expansion, challenges remained, including addressing the digital divide and ensuring the quality of online courses while complying with relevant regulations.

The eLearning Market research complements and investigates the disruptive forces, their function, and structure in a market and financial services environment of competition. The supply side is mirroring the Indoor Plant shift in how customers interact with financial companies. The eLearning Market scope gives market size and estimations data to give more insight into how these trends are taken into account in the market trajectory.
