

GoodData Integrates HIPAA Compliance Into GoodData Cloud

SAN FRANCISCO, US, November 2, 2023 /EINPresswire.com/ -- [GoodData](#), the cloud-based data and analytics platform, is proud to announce the availability of HIPAA (Health Insurance Portability and Accountability Act) compliance within its GoodData Cloud analytics platform — for organizations that need to adhere to health data laws in the United States for processing ePHI (electronic Protected Health Information). With this latest optional add-on, GoodData reinforces its commitment to catering to customer needs and providing comprehensive solutions for compliance and data security.

HIPAA compliance is a crucial requirement for organizations dealing with electronic health information in the United States. Ensuring the confidentiality, integrity, and availability of ePHI is not only a legal necessity but also a fundamental step in safeguarding sensitive patient data.

GoodData recognizes the challenges faced by healthcare providers, insurance companies, and related entities in complying with these regulations. Therefore, GoodData has integrated the option of HIPAA compliance into its analytics platform, empowering organizations to meet regulatory requirements seamlessly.

"GoodData is proud to introduce the option of HIPAA compliance to GoodData Cloud and assist organizations in meeting their regulatory obligations related to ePHI health data. This new offering is a testament to our dedication to customer satisfaction and data security. We understand the challenges faced by our clients in the healthcare industry, and we are here to support them every step of the way", said Vojtech Luhan, GoodData's Head of Security and Compliance.

GoodData is proud to introduce the option of HIPAA compliance to GoodData Cloud and assist organizations in meeting their regulatory obligations related to ePHI health data."
