

# SRS Pharmacy Systems Partners with InfiniTrak for Complete Turnkey DSCSA Compliance Solution

*The Partnership Provides a Comprehensive, User-Friendly DSCSA Compliance Solution to SRS Pharmacies*

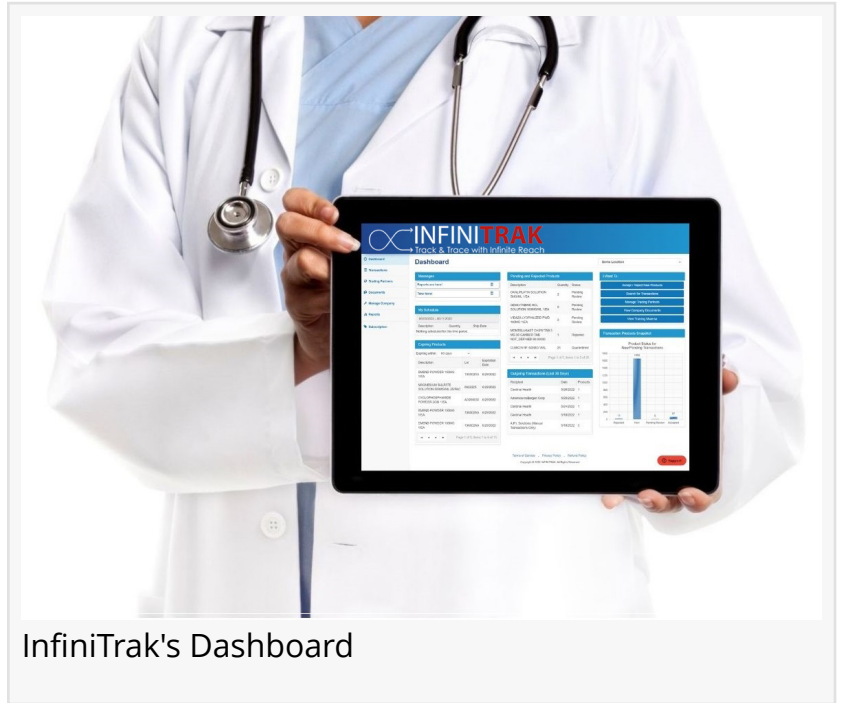

TOLDEO, OHIO, UNITED STATES, November 2, 2023 /EINPresswire.com/ -- SRS announces its partnership with [InfiniTrak](#), an industry-leading Drug Supply Chain Security Act (DSCSA) solutions provider. This partnership provides the SRS pharmacy base with the necessary DSCSA compliance tools.

The FDA has announced a reprieve of one year, until November 27, 2024, for DSCSA requirements compliance. But, as their announcement emphasized, they are encouraging the industry, including all dispensers, to continue working toward complete compliance at the end of this stabilization period, and stressed that there were still 2023 requirements to meet.

Sam Pizzo, InfiniTrak Senior Vice President of Strategic Alliances, said, "This "stabilization period", will give pharmacies plenty of time to make all necessary adjustments and fine tune their systems. Pharmacies should not slow down, nor put off their efforts, but continue to focus on ensuring that all their processes and procedures are working properly and efficiently well before the new deadline."

Jim Tussey, SRS Pharmacy's CEO, "We chose a partner who understands pharmacy. As pharmacy solutions need to minimize workflow disruptions, provide immediate access to regulatory data, and meet all required data archiving functions while preparing for the 2024 interoperability, traceability, and product verification compliance requirements."
