

Constant Energy Earns GRESB Five-Star Status for 2023 Solar PV Power Investments

Constant Energy was awarded the coveted GRESB Five Star status for its green infrastructure investments in the photovoltaic solar power generation industry.

BANGKOK, THAILAND, November 3, 2023 /EINPresswire.com/ -- Constant Energy, a leading company in renewable energy generation and storage, has been awarded a five-star rating by GRESB for its green infrastructure investments in the photovoltaic solar power generation industry. GRESB is a trusted organization that provides validated ESG (environmental, social governance) performance data and peer benchmarks to investors and managers. Its infrastructure assessment of 2023 covered 687 assets across 72 countries, making this recognition a significant achievement for Constant Energy.

“

GRESB is an organization that showcases ESG importance in all industries and businesses. I am so proud of Constant Energy for consistently maintaining a high ranking that showcases our values [...].”

*Franck Constant, CEO of
Constant Energy*

With only 20% of all organizations that GRESB rates earning a five-star rating, having achieved this rating two years in a row places Constant Energy in the top three photovoltaic power generation organizations of the independent solar power providers evaluated by GRESB globally. The company achieved an overall GRESB score of 96 out of 100, against a peer average score of 75 to 80 points.

This recognition will help support the rising commercial solar power company with its ESG and CSR initiatives and efforts to reduce carbon emissions through its net-zero

plan.

Constant Energy's CEO, Franck Constant, commented, "GRESB is an organization that showcases ESG importance in all industries and businesses. I am so proud of Constant Energy for consistently maintaining a high ranking that showcases our values and how beneficial environmental, social governance and sustainable values are to ourselves, potential clients, and the future health of our planet."

Dussadee Tanjariyanon, HSSE Department Head (Health, Social, Safety & Environmental) at Constant Energy, commented, "This rating allows us to continue our ESG and HSSE initiatives and provides concrete evidence to showcase Constant Energy's commitment to these values in all aspects of our organization and even after a project is completed."

[About Constant Energy]

Constant Energy is a renewable energy generation and storage investment platform that invests in and manages high-quality power assets in selected countries. As a commercial solar panel developer and Independent Power Producer (IPP), we develop, design, finance, build, own, and operate utility-scale and commercial rooftop solar photovoltaic power stations to lead the way in alternative energy resources and renewable energy. Regionally headquartered in Bangkok, Constant Energy operates primarily in Southeast Asia. We produce long-term green and reliable electricity for our clients, using renewable energy sources and green energy fuels, enabling them to reduce their energy bills and increase profitability and enterprise value while focusing on their core business activities.
