

Preme Token Holders Rise to 1,258 After Launch of Blaze Token's swapNgo Cryptocurrency Swapping Platform

DENVER, COLORADO, USA, November 6, 2023 /EINPresswire.com/ -- November is kicking off just the way the [Preme Token](#) family had planned, as this month has been deemed New Holder November and since Nov 1, 2023, Preme Token holders have gone up 33% to 1,258.

Preme Token has formed a strategic partnership with the [Blaze Token](#) community. Working together to bring everyone back to a truly decentralized trading experience, moving away from the ever-rising prices of exchanges. The Preme and Blaze communities alone are strong and loyal. Together they are a force in the cryptocurrency market. Through marketing efforts, joint community awareness, and education, both projects are laser-focused on exponential growth and revolutionizing cryptocurrency.

“

swapNgo was built with the KISS method to make it easy for all traders to enter the cryptocurrency market.”

RASHI THEMADSCIENTIST

The [swapNgo](#) Swapper was launched on Saturday, November 4th and there has been a steady uptick in Preme Token trading volume since launch. swapNgo is an outstanding and much cheaper way for crypto traders to swap for tokens. The swapping platform was thought up with the "KISS" method as a constant reminder, sometimes crypto is way too complicated for new traders, and

seasoned traders alike. Blaze token leader Rashi, AKA themadscientist, developed the swapNgo with these main goals in mind: ease of use for all traders and an offering of multiple swapping platform options, not readily available through other swappers in the market.
