There's no fuss, no mess, and no artificial additives, and they've even patented their technique.

To enjoy a Tea Drops Latte is simple and convenient. Place the Tea Drop at the bottom of a cup, pour in boiling water, stir, then top with milk or creamer, and enjoy. These latte kit can be prepared hot or iced and in less than 2 minutes, making it effortless to create a cafe-quality latte anytime, anywhere.

These latte kits will be available in select Walmart stores on November 4th. For more information about Tea Drops, please visit www.myteadrop.com or connect with Tea Drops on social media [@myteadrop](https://www.instagram.com/myteadrop).
