An extract from CocktailWave's Margarita Cocktail Recipe has been included below:

The Margarita is a classic cocktail that has been enjoyed for decades. It is believed to have originated in Mexico in the 1930s or 1940s, with various stories attributing its creation to different bartenders and socialites. The Margarita is a popular choice for those who enjoy the refreshing combination of tequila, lime, and orange liqueur.

Some believe it was first created by a bartender in Tijuana, Mexico, for a showgirl named Marjorie King, who was allergic to all alcohol except tequila. Others claim it was invented by socialite Margarita Sames, who mixed the drink for her friends at her Acapulco vacation home in 1948. The Margarita gained widespread popularity in the United States during the 1960s and 1970s, and it remains a favourite choice for many cocktail enthusiasts today.

The Margarita is a well-balanced cocktail with a bright, citrusy flavour. It is both sweet and sour, with the tanginess of lime juice complementing the sweetness of the orange liqueur. The tequila adds a strong, earthy backbone, while the salt rim enhances the overall taste and adds a savoury touch.

The Margarita is often served in a distinctive glass with a wide, shallow bowl and a long stem, known as a Margarita glass. The cocktail is traditionally made with tequila, lime juice, and orange liqueur, but there are many variations, including fruit-flavoured Margaritas and frozen blended versions. The Margarita is so popular that it has its own holiday: National Margarita Day is celebrated on February 22nd.

Prepare the glass:

Rub the rim of a Margarita glass with a lime wedge.

Dip the rim in a shallow plate of salt to coat it evenly.

Make the cocktail:

In a cocktail shaker, combine the tequila, lime juice, orange liqueur, and simple syrup (if using).

Fill the shaker with ice and shake vigorously for 10-15 seconds.

Strain and serve:

Strain the mixture into the prepared Margarita glass.

Garnish with a lime wedge on the rim of the glass.
