Skillable named a 2023 IT & Technical Training Watchlist Company by Training Industry

Skillable's hands-on solution is helping organizations plug critical IT and technical skills gaps with effective, reinforced training and validation.

NEW PORT RICHEY, FL, UNITED STATES, November 9, 2023 /EINPresswire.com/ -- [Skillable](#), the leading technology platform for hands-on learning experiences, has been selected as a 2023 IT & Technical Training Watchlist Company by Training Industry. The recognition follows a long list of successes for 2023 including 98 G2 badges from user reviews, winning the "Enterprise Learning Solution of the Year" in the 5th annual EdTech Breakthrough Awards and being selected as a 2023 Training Industry Top Experiential Learning Technologies Company.

> "Our inclusion in the 2023 IT & Technical Training Watchlist underpins the impact that Skillable's hands-on learning is having on organizations and their customers, partners and employees."
>
> *Chris McCarthy, CEO of Skillable*

Breadth and quality

The 2023 Training Industry Top IT & Technical Training Companies list was determined by a vendor's breadth and quality of programs and services, impact on the IT and technical training market and performance and growth. Skillable's inclusion in the list highlights the strength of its hands-on IT and technical training which helps customers to upskill individuals in software, cybersecurity, data science, artificial intelligence and more.

The scalability and ease of use of the Skillable platform is called out by many customers. As one states, "This company has created an incredibly feature-rich environment to both develop and deploy real Virtual Machine labs and classes. This isn't a simulated environment. It incorporates real Virtual Machines in a track-able, score-able, repeatable lab experience."

Train and validate skills

Hands-on learning provides an effective way to quickly train and validate skills while ensuring more information is retained through practical reinforcement. Up to [75%](#) of information is

retained when individuals are given opportunities to practice their newly learned skills.

"This year's Top 20 IT & Technical Training Companies are leading innovators in the IT training sector," said Jessica Schue, Market Research Analyst at Training Industry, Inc. "These companies demonstrate high-quality content on topics and skill sets such as cybersecurity, data science/analytics, cloud computing, programming with a wide range of programming languages and much more. Utilizing advanced technologies and modalities like artificial intelligence (AI), augmented reality (AR) and virtual labs, these companies take an immersive approach to training and work continuously to quickly adapt and keep up with the ever-changing IT market."

A proven solution to the digital skills shortage

Chris McCarthy, Chief Executive Officer of Skillable, said, "Providing effective, trackable IT and technical skills training is business critical at a time when the IT skills shortage is causing concern in boardrooms globally. Knowledge-based training isn't enough when it comes to training in cybersecurity, data science, AI and other high-impact, high-risk areas. That's why Skillable's platform provides a way to quickly upskill people in much-needed IT skills while assessing their ability to perform those skills on the job. Our inclusion in the 2023 IT & Technical Training Watchlist underpins the impact that Skillable's hands-on learning is having on organizations and their customers, partners and employees."
