

Dump Trucks And Mining Trucks Market Industry Key Players, Trends, Demand, Analysis & Forecast to 2031

Dump Trucks And Mining Trucks Market Expected to Reach \$92.1 Billion by 2031

PORTLAND, OR, UNITED STATES,
November 10, 2023 /

EINPresswire.com/ -- Mining activity has increased as a result of the growing demand for key metals. The growth of the mining and construction industries has led to a greater acceptance of off-road vehicles, including dump trucks and mining

trucks, which are used for transporting goods such as rock, sand, iron metal, and many others. The global market is expected to expand significantly during the forecast period, as evidenced by the presentation of new coalfields and digging destinations for energy-creation activities in steel, concrete, and force area. Governments worldwide are increasing their investment in infrastructure and transportation. This increased interest in infrastructure and transportation will definitely benefit the global [dump trucks and mining trucks market](#) growth.

The dump trucks and mining trucks market was valued ed at \$45.45 billion in 2021, and is estimated to reach \$92.1 billion by 2031, growing at a CAGR of 7.4% from 2022 to 2031.

Dump trucks and mining trucks are usually more expensive than their counterparts. The price of dump trucks is 100 tons or more, as compared to heavy-duty truck, especially if those trucks are diesel-powered. Long-term maintenance expenditures for diesel engines may increase as well as diesel engines requiring frequent maintenance. All these factors are anticipated to hinder the dump trucks and mining trucks market size.

Energy-efficient automobiles are being introduced by manufacturers to lessen the negative effects of mining and exploitation. Companies have been forced to offer a way for diesel motors to reduce their carbon footprint due to strict emission regulations. Simple electric dump trucks

that adhere to discharge guidelines and satisfy customer requirements are now being produced by Manufacturers. Several manufacturers have also begun developing cutting-edge dump trucks that use artificial intelligence. Mining and development activities have resulted in the advancement of cutting-edge innovations, reducing the association of diggers to limit risks. These inventions have recently gained traction and are expected to propel the dump trucks and mining trucks market opportunities.

Top Players:

The key players profiled in the dump trucks and mining trucks market report include SANY Group, Caterpillar, Hitachi Construction Machinery Co., Ltd., Liebherr, Volvo, Komatsu, Deere & Company, Zoomlion Heavy Industry Science and Technology Co., Ltd., XCMG Group, and Scania.

Key Findings of the Study

- Based on type, the rigid sub-segment emerged as the global leader in 2021 and the articulated sub-segment is anticipated to be the fastest-growing sub-segment during the dump trucks and mining trucks market forecast period.
- Based on payload class, the less than 100 tons sub-segment emerged as the global leader in 2021 and is anticipated to be the fastest-growing sub-segment during the forecast period.
- Based on engine type, the internal combustion sub-segment emerged as the global leader in 2021 and the electric sub-segment is anticipated to be the fastest-growing sub-segment during the forecast period.
- Based on the end-use industry, the construction sub-segment emerged as the global leader in 2021 and the mining sub-segment is predicted to show the fastest growth in the upcoming years.
- Based on region, the Asia-Pacific market registered the highest market share in 2021 and is projected to maintain the position during the forecast period.
