New Security+ SY0-701 Course and Exam Starting Now at CED Solutions

CompTIA Security+ is a global certification that validates the baseline skills necessary to perform core security functions and pursue an IT security career.

BOZEMAN, MT, UNITED STATES, November 13, 2023 / EINPresswire.com/ -- CED Solutions provides the most content and benefits from any organization tor Security+

Complex Security issues are everywhere in IT

CompTIA Security+ is a global certification that validates the baseline skills necessary to perform core security functions and pursue an IT security career. Security+ is chosen by more corporations and defense organizations than any other certification on the market to validate baseline security skills and for fulfilling the DoD 8570 compliance.

> The CompTIA Security+ course is the standard for understanding the extent of security issues facing the IT world today, said Richard Rodgers, President & CEO"
> *Richard Rodgers*

Security+ is the only foundational cybersecurity certification emphasizing hands-on practical skills, ensuring the security professional is better prepared to problem solve a wider variety of today's complex issues. CompTIA Security+ is compliant with ISO 17024 standards and approved by the U.S. DoD to meet directive 8140/8570.01-M requirements.

Regulators and government rely on ANSI accreditation, because it provides confidence and trust in the outputs of an accredited program. Over 2.3 million CompTIA ISO/ANSI-accredited exams have been delivered since January 1, 2011.

Join over 40,000 students to attend IT training with CED Solutions in the past 24 years. All instructors are experts and have taught more than 16 years each.
