#### About Benedetta:

Founded by Julia Faller in 1996, Benedetta has been a trailblazer in the clean skin care industry, championing certified organic and biodynamic agriculture. Conceived in response to the need for petrochemical-free skincare in the mid-'80s, Benedetta prioritizes skin health through a holistic regimen.

Benedetta takes a holistic approach, addressing the systemic functioning of the skin to reveal its true health. With a focus on purification, protection (without SPFs), correction (from atmospheric stress), and rejuvenation, Benedetta formulates 100% botanical plant formulations designed to work synergistically. The preparations are never fragranced with added essential oils, focusing on the skin's needs rather than just combining essential oils and botanicals.

"I created Benedetta with a clear intention for every product and how they may relate to the next

step used within the system. Our unified approach cares for the skin to correct, protect, and rejuvenate it," says Julia Faller.
