

Digital Pathology Market Sets New Record, Projected at USD 17.91 Billion by 2030 at 9.3% CAGR: Allied Market Research

The key market players analyzed in the market report include 3DHISTECH LTD, Danaher Corporation, Glencoe Software Inc., Nikon Corp, Roche, & Perkinelmer Inc.

PORTLAND, OREGON, UNITED STATES, November 13, 2023 /

EINPresswire.com/ -- Digital pathology is an emerging technology in the field of pathology, where test results are converted into digital images for easy viewing, analysis, storage, and management of the collected data.

This is expected to result in many advancements and upgradation of conventional pathology. It introduced whole slide imaging technologies, which enabled the digitalization of an entire specimen at diagnostic quality improves laboratory workflow. Digital pathology is rapidly gaining momentum as an essential technology with specific support for education, drug discovery & tissue-based research, and practice of human pathology throughout the world.

Allied Market Research has published a study report with the title [Global Digital Pathology Market: Opportunities and Forecasts, 2021-2030](#). The report provides comprehensive information on the market trends, including insights into the top segments and key investment opportunities. The report also likely includes a detailed analysis of the value chains, regional landscape, and competitive scenario, which can be beneficial for businesses looking to expand their operations or enter a new market.

Global Digital Pathology Market is expected to reach \$1791.3 Million by 2030, growing at a CAGR of 9.3% (2021-2030).

Use of digital pathology in disease diagnosis, rise in the trend of digitalization in the medical sector, ease of consultation, and growth in diagnostic services in remote regions drive the growth of the global digital pathology market. On the other hand, lack of reimbursement policies

and high cost of digital pathology solutions restrain the growth to some extent. However, increase in potential of digital pathology is projected to create numerous opportunities in the industry.
