

# Green Building Materials in South East Asia and Australia Market Growing at Exponential CAGR by 2031

*South East Asia and Australia green building materials market size is projected to reach \$43.3 billion by 2031, growing at a CAGR of 9.9% from 2022 to 2031*

OREGON, PORTLAND, UNITED STATES, November 13, 2023 /

EINPresswire.com/ -- According to the report published by Allied Market Research, The [South East Asia and Australia green building materials market](#) size was valued at \$16.8 billion in 2021, and is projected to reach \$43.3 billion by 2031, growing at a CAGR of 9.9% from 2022 to 2031. The report offers a detailed analysis of changing market trends, top segments, key investment pockets, value chain, regional landscape, and competitive scenario.

South East Asia and Australia Green Building Materials Market Share

Decrease in emission from green building materials and low operation cost drive the growth of the South East Asia and Australia green building material market. However, cost concern and market barriers restrains the market growth. On the other hand, growth in construction sector creates new opportunities in the coming years.

Leading players of the South East Asia and Australia green building material market analyzed in the research include PT Bakrie & Brothers Tbk, Siam Cement Group, PT Modern Panels Indonesia, Brickworks Building Products Ltd., Kee Kiong (A2Z) SDN BHD, Aathaworld Sdn Bhd, Interface Inc., James Hardie Australia Pty Ltd., GreenPan, and CSR Limited.

Covid-19 Scenario:

The outbreak of covid-19 majorly impacted the construction sector, owing to which, the green building material market witnessed declined demand growth in South East Asian and Australian regions. Increase in the risk of infection among the workforce resulted in delayed construction projects, especially during the initial stage.

Several green building materials manufacturers in these regions either suspended or declined their operations which impacted the supply chain. Also, the decreased purchasing potential of suppliers affected the market throughout the pandemic.

On the other hand, the government bodies are taking initiatives for mass COVID vaccination drives. The businesses are permitted to remain active under precautionary measures. This factor is assisting the construction industry to continue their operations and the green building material market, therefore, is expected to recoup henceforth.
