

Introducing Presto Smile: Proprietary One-Of-A-Kind Dental AI Chair-Side Smile MockUp Tool For Hygienist and Assistants

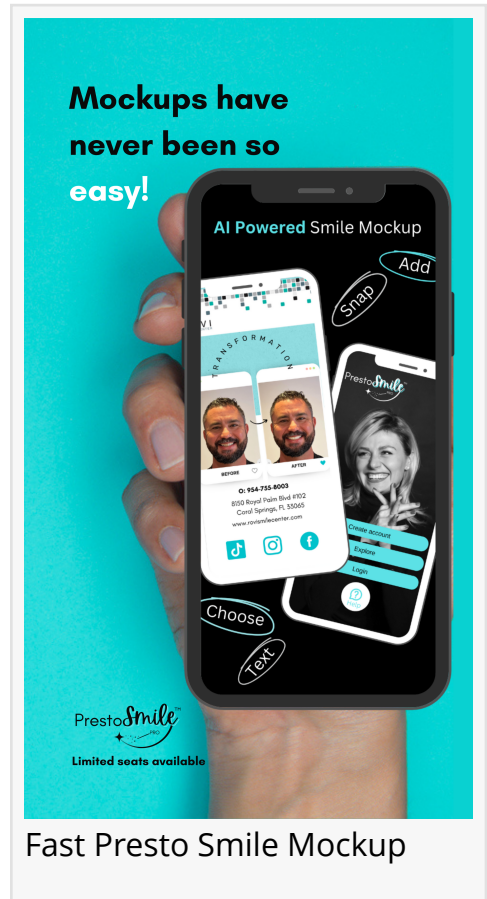

Proprietary AI technology fulfills the need for instant gratification in dentistry.

FORT LAUDERDALE, FL, UNITED STATES, November 14, 2023 /EINPresswire.com/ -- [Presto Smile](#) will be released in 2024 and is a groundbreaking dental AI solution powered by a unique proprietary technology that sets a new standard in patient satisfaction and clinical efficiency. Designed exclusively for dental assistants and [hygienists](#), Presto Smile's chair-side smile mockup tool fulfills the rising demand for instant gratification among patients and clinicians alike.

In today's fast-paced world, convenience and immediate results have become crucial factors in various industries, and dentistry is no exception. Patients increasingly seek instant visual representations of their desired smile transformations, while clinicians strive for streamlined workflows and enhanced treatment planning. Recognizing this need, Presto Smile has developed an innovative AI-powered solution that bridges the gap between patients' expectations and clinicians' expertise.

Presto Smile differentiates itself from existing dental AI technologies available on the market by leveraging its one-of-a-kind proprietary AI system. This state-of-the-art technology empowers dental assistants and hygienists with a chair-side smile mockup tool that enables them to provide patients with an instant visual representation of their future smiles. By leveraging AI algorithms, Presto Smile accurately generates virtual smile simulations, allowing patients to preview potential outcomes and make informed decisions about their dental treatments.

Integrating Presto Smile's AI technology into dental practices revolutionizes the patient experience. Gone are the days of waiting for days or even weeks to receive smile mockups from external labs. With Presto Smile, patients can now witness their smile transformations in real-time during their appointments, fostering a sense of instant gratification and greater patient engagement. This cutting-edge technology enhances patient satisfaction and facilitates more

efficient communication between clinicians and patients, ensuring that treatment plans align with patients' desires and expectations.

Furthermore, Presto Smile's chair-side smile mockup tool significantly streamlines the treatment planning process for dental assistants and hygienists. Clinicians can optimize their workflows and enhance overall productivity by eliminating the need for external lab involvement and reducing turnaround times. This powerful tool empowers dental professionals to provide comprehensive chair-side consultations, offering patients immediate feedback and allowing for collaborative decision-making.

"Presto Smile is at the forefront of dental AI innovation," said [Billie Prisby](#), CEO and dental expert. "By harnessing the power of AI and integrating it into chair-side smile mockups, Presto Smile has truly transformed how we engage with patients and plan treatments. This technology can potentially revolutionize the dental industry by providing instant gratification to patients and improving clinical efficiency."

Presto Smile is committed to advancing dental care through cutting-edge AI technology. With its chair-side smile mockup tool, dental assistants and hygienists can now deliver personalized and visually appealing treatment plans with remarkable ease, resulting in heightened patient satisfaction and improved clinical outcomes.
