# Nota Announces AI Integration for Newspack Newsrooms

Revolutionizing Digital Journalism: Nota's AI Tools to Empower Newspack's Diverse Network of Publishers

UNITED STATES, November 15, 2023 /EINPresswire.com/ -- Nota, a leading AI SaaS Company, announced today

AI and CMS Partnership

that it has arranged to make state-of-the-art AI tools widely available to news organizations on Newspack's open source publishing platform. This exciting partnership will make Nota's accessible to the nearly 250 small and mid-sized local news publishers who use the Newspack platform.

> " Through our partnership with Newspack we're reinventing how news is delivered and consumed. Our AI tools empower publisher stories to resonate with their audiences in this digital age."
>
> *Josh Brandau, CEO of Nota*

Thanks to Nota's cutting-edge AI capabilities, publishers can now benefit from instant Headline and Story optimization, efficient SEO recommendations, inventive Social post suggestions and much more. The tool set is designed to be completely editable and user-friendly, ensuring that news publishers, whether from large corporations or small independent outlets, can leverage the power of AI to enhance their content strategy.

Josh Brandau, CEO of Nota, commented, "This integration marks a significant advancement in the digital publishing landscape. Our primary vision has always been to harness the potential of AI for content creators, and partnering with Newspack has made that vision a reality. We're confident that our tools will offer unparalleled assistive AI to newsrooms everywhere."

"By working with Nota we're able to easily and affordably extend some of the latest AI capabilities to our publishers", said Kinsey Wilson, Founder and Head of Newspack. As a testament to their commitment to innovation and in celebration of this collaboration, Nota is offering significant discount pricing available through the end of the year for those that sign up now, and is committed to giving Newspack partners the best pricing available. Guaranteed.

Brandau added, "At Nota, we understand the ever-evolving challenges that publishers face. Our tools are crafted to provide real-time solutions, ensuring content remains relevant, engaging, and optimized for the AI age."
