

Flower Turbines Passes \$3 Million in Current Funding Round

Flower Turbines, an innovative wind turbine company, has passed \$3 Million raised in its latest equity crowdfunding RegA+ offering.

LUBBOCK, TEXAS, UNITED STATES,
November 16, 2023 /

EINPresswire.com/ -- [Flower Turbines](https://www.startengine.com/offering/flowerturbines) is raising funds through equity crowdfunding Regulation A at <https://www.startengine.com/offering/flowerturbines> and has now passed \$3 million. This is its fourth raise on Startengine and two of the previous raises were sold out. The total raised is now \$14 million.

Products can be bought at <https://www.flowerturbines.com/shop>. Those in the EU can buy by quotation from their staff at support.eu@flowerturbines.com. Outside of those areas, contact support.us@flowerturbines.com for a custom quotation.

Flower Turbines is a US company with an important branch in the EU that has the goal of making small wind as powerful a force in renewable energy as solar by using its multiple patents to create a wind turbine that meets all the needs of urban and suburban environments. It combines aerodynamic innovations with

Bouquet of Wind Tulip Turbines

beautiful design, low noise, and bird friendliness. Unlike other turbines, they make each other perform better when tightly packed together.

Technology being developed by Flower Turbines enables a new model in the small wind industry. Focused on creating beautiful, affordable, and efficient turbines for the urban/suburban market and tight spaces, it seeks to pave the way for the future of distributed energy, particularly with solar. Its “Cluster Effect” (whereby their turbines perform better when tightly packed together as opposed to the most common turbines which perform worse when tightly packed) could give them a key advantage to scaling farms of small wind turbines and harnessing the electricity they produce.

“We have the ambition to become a major global force in distributed energy,” said CEO Dr. Daniel Farb. “We believe we have the technology and enthusiasm to accomplish it. We are in the right industry at the right time. Incentives for an energy transition in most important areas of the world only add to our scaling up headwinds.

"Additional funds raised will help us to scale our manufacturing and sales and to continue our path of developing a portfolio of over 30 patents in aerodynamics, electronics, manufacturing, and installation.”

Some of Flower Turbines' most significant patents involve the bouquet effect--that the turbines make each other perform better when close together.

The Cluster Effect

Average Watts Per Small Wind Turbine at 10m/s

This shows how each turbine produces more energy as another turbine is clustered. 5 Flower Turbines together produce 228% more power than 5 separate turbines.

Wind and Solar E-bike Charging Poles

Flower Turbines has external validation as a top company:

- Flower Turbines has been awarded the "Solar Impulse Efficient Solution" Label, a proof of high standards in profitability and sustainability to protect the environment. Here is a link to the page about Wind Tulips on the Solar Impulse website:

<https://solarimpulse.com/efficient-solutions/wind-tulips#>

- Flower Turbines was a winner of Pepperdine Graziado Business Schools annual Most Fundable Companies in America list. Flower Turbines was judged to be in the top 10 among 4500 startup companies examined.

- Winner of the Dutch government sustainability award for two separate years.
