EMIRATES, November 16, 2023

/EINPresswire.com/ -- TEDxDubai is
back with an exciting event,

COUNTDOWN, featuring curated and
unpublished talks from the recent TED
COUNTDOWN summit that took place
in Detroit in July 2023. This event aims
to bring together individuals from

various backgrounds to share knowledge and connect in preparation for the upcoming COP28.

exception. The event will feature recorded talks from
renowned speakers who participated in the TED
COUNTDOWN summit, discussing topics such as climate
change, sustainability, and the future of our planet. These
talks will provide valuable insights and ideas for individuals
and organizations to take action towards a more
sustainable future. The program will last for two hours
followed by a discussion and networking along six session
themes: Compass, Lessons, Dilemmas, Renewal
Community, and Momentum.

The event is free of charge to attend, but interested individuals must complete a short
application to obtain an invite. This ensures that the event is attended by those who are
genuinely interested in learning and contributing to the conversation. COUNTDOWN will take
place on 22.11. 23 at 7 pm at Index Tower outdoor theatre and attendees can expect an evening
filled with engaging talks, learnings, and a chance to participate in the global movement towards

a more sustainable world.

Natascia Radice, licensee and curator of TEDxDubai since 2009 said "This is the first time we reconnect with the community members since covid and it's both thrilling and emotional. This event comes full circle as our partners have been in the TEDxDubai audience supporting us since our first edition, and it's just wonderful to see them come back to get involved. Illac Diaz, who launched his global impact project Liter of Light on our very stage in 2011, will attend too and will be sharing his journey during discussions."

TEDxDubai is committed to spreading ideas and sparking conversations that can lead to positive change and bringing together individuals from different backgrounds to learn, share, and connect in preparation for COP28. Don't miss this opportunity to be a part of the conversation and contribute to a better future for our planet.
