

# Avionics Software Market is Booming Worldwide | BAE Systems, Thales, Garmin

*Stay up to date with Avionics Software Market research offered by HTF MI. Check how key trends and emerging drivers are shaping this industry growth.*

PUNE, MAHARASHTRA, INDIA,  
November 15, 2023 /

EINPresswire.com/ -- According to HTF Market Intelligence, the [Global Avionics Software market](#) to witness a CAGR of 11.5% during the forecast period (2023-2029). The Latest Released Avionics Software Market Research

assesses the future growth potential of the Avionics Software market and provides information and useful statistics on market structure and size.

Avionics Software Market

This report aims to provide market intelligence and strategic insights to help decision-makers make sound investment decisions and identify potential gaps and growth opportunities. Additionally, the report identifies and analyses the changing dynamics and emerging trends along with the key drivers, challenges, opportunities and constraints in the Avionics Software market. The Avionics Software market size is estimated to increase by USD 162.8 Billion at a CAGR of 11.5% by 2029. The report includes historic market data from 2023 to 2029. The Current market value is pegged at USD 91.5 Billion.

“

HTF MI integrates History, Trends, and Forecasts to identify the highest value opportunities, cope with the most critical business challenges and transform the businesses.”

*Craig Francis*

The Major Players Covered in this Report: Honeywell Aerospace (United States), Thales Group (France), Rockwell Collins (now Collins Aerospace, a Raytheon Technologies Company) (United States), Garmin Ltd. (Switzerland), Safran Electronics & Defense – France), GE Aviation Systems (United States), L3Harris Technologies (United States), BAE Systems (United Kingdom), Cobham plc (United Kingdom), Moog Inc. (United States), Curtiss-Wright Corporation (United States), Astronics Corporation (United States)

#### Definition:

Avionics software refers to the specialized software systems and applications used in the aviation and aerospace industry to control, monitor, and manage various electronic systems and instruments on an aircraft. These software solutions play a vital role in ensuring the safe and efficient operation of aircraft, as well as enhancing the capabilities and functionalities of onboard avionics systems. Flight control software is responsible for managing and controlling the aircraft's flight surfaces, including ailerons, elevators, and rudders. It plays a critical role in maintaining stability, controlling the aircraft's attitude, and responding to pilot inputs. Navigation software is used for route planning, navigation, and guidance. It may incorporate features like GPS, waypoints, and automated flight planning to assist pilots in safe and efficient navigation. Communication software enables communication between the aircraft and air traffic control (ATC) and other aircraft. It includes voice communication and data transmission systems.

#### Market Trends:

Airlines and aircraft operators are investing in the modernization and upgrade of avionics software to improve safety, efficiency, and compliance with regulatory requirements. The adoption of connected aircraft solutions is growing, which requires avionics software for data exchange, real-time monitoring, and predictive maintenance. The shift toward digital cockpits with advanced avionics displays and systems for enhanced situational awareness and pilot experience.

#### Market Drivers:

Stringent safety regulations and the need for compliance with aviation authorities drive the development and adoption of avionics software for safety-critical functions. Airlines seek to improve operational efficiency, reduce fuel consumption, and lower maintenance costs through the use of advanced avionics software. Passengers' increasing demand for in-flight connectivity is driving the need for avionics software to support Wi-Fi and entertainment systems.

#### Market Opportunities:

The development and introduction of next-generation aircraft present opportunities for avionics software providers to offer advanced solutions for these platforms. Opportunities in the growth of satellite-based communication systems to enhance in-flight connectivity and data transmission. The aviation industry's commitment to sustainability opens opportunities for avionics software that supports more fuel-efficient flight operations.

The titled segments and sub-sections of the market are illuminated below:

In-depth analysis of Marine Propulsion Engines market segments by Types: Flight Management Systems, Air Data Systems, Communication Systems, Others

Detailed analysis of Marine Propulsion Engines market segments by Applications: Flight Planning and Management, Navigation and Guidance, Communication, Others

Major Key Players of the Market: Honeywell Aerospace (United States), Thales Group (France), Rockwell Collins (now Collins Aerospace, a Raytheon Technologies Company) (United States), Garmin Ltd. (Switzerland), Safran Electronics & Defense – France), GE Aviation Systems (United States), L3Harris Technologies (United States), BAE Systems (United Kingdom), Cobham plc (United Kingdom), Moog Inc. (United States), Curtiss-Wright Corporation (United States), Astronics Corporation (United States)

Geographically, the detailed analysis of consumption, revenue, market share, and growth rate of the following regions:

- The Middle East and Africa (South Africa, Saudi Arabia, UAE, Israel, Egypt, etc.)
- North America (United States, Mexico & Canada)
- South America (Brazil, Venezuela, Argentina, Ecuador, Peru, Colombia, etc.)
- Europe (Turkey, Spain, Turkey, Netherlands Denmark, Belgium, Switzerland, Germany, Russia UK, Italy, France, etc.)
- Asia-Pacific (Taiwan, Hong Kong, Singapore, Vietnam, China, Malaysia, Japan, Philippines, Korea, Thailand, India, Indonesia, and Australia).

Objectives of the Report:

- To carefully analyse and forecast the size of the Avionics Software market by value and volume.
- To estimate the market shares of major segments of the Avionics Software market.
- To showcase the development of the Avionics Software market in different parts of the world.
- To analyse and study micro-markets in terms of their contributions to the Avionics Software market, their prospects, and individual growth trends.
- To offer precise and useful details about factors affecting the growth of the Avionics Software market.
- To provide a meticulous assessment of crucial business strategies used by leading companies operating in the Avionics Software market, which include research and development, collaborations, agreements, partnerships, acquisitions, mergers, new developments, and product launches.

Global Avionics Software Market Breakdown by Application (Flight Planning and Management, Navigation and Guidance, Communication, Others) by Type (Flight Management Systems, Air Data Systems, Communication Systems, Others) by End Use (Commercial Aviation, Military Aviation, General Aviation) and by Geography (North America, South America, Europe, Asia Pacific, MEA)

Buy Latest Edition of Market Study Now @ <https://www.htfmarketintelligence.com/buy-now?format=1&report=4739>

Key takeaways from the Avionics Software market report:

- Detailed consideration of Avionics Software market-particular drivers, Trends, constraints, Restraints, Opportunities, and major micro markets.
- Comprehensive valuation of all prospects and threats in the
- In-depth study of industry strategies for growth of the Avionics Software market-leading players.
- Avionics Software market latest innovations and major procedures.
- Favourable dip inside Vigorous high-tech and market latest trends remarkable the Market.
- Conclusive study about the growth conspiracy of Avionics Software market for forthcoming years.

Major questions answered:

- What are influencing factors driving the demand for Avionics Software near future?
- What is the impact analysis of various factors in the Global Avionics Software market growth?
- What are the recent trends in the regional market and how successful they are?
- How feasible is Avionics Software market for long-term investment?

Enquire for customization in Report @ <https://www.htfmarketintelligence.com/enquiry-before-buy/global-avionics-software-market>

Major highlights from Table of Contents:

Avionics Software Market Study Coverage:

- It includes major manufacturers, emerging player's growth story, and major business segments of Global Avionics Software Market Size & Growth Outlook 2023-2028 market, years considered, and research objectives. Additionally, segmentation on the basis of the type of product, application, and technology.
- Global Avionics Software Market Size & Growth Outlook 2023-2028 Market Executive Summary: It gives a summary of overall studies, growth rate, available market, competitive landscape, market drivers, trends, and issues, and macroscopic indicators.
- Avionics Software Market Production by Region Avionics Software Market Profile of Manufacturers-players are studied on the basis of SWOT, their products, production, value, financials, and other vital factors.

Key Points Covered in Avionics Software Market Report:

- Avionics Software Overview, Definition and Classification Market drivers and barriers
- Avionics Software Market Competition by Manufacturers
- Avionics Software Capacity, Production, Revenue (Value) by Region (2023-2029)
- Avionics Software Supply (Production), Consumption, Export, Import by Region (2023-2029)
- Avionics Software Production, Revenue (Value), Price Trend by Type {Flight Management Systems, Air Data Systems, Communication Systems, Others}

- Avionics Software Market Analysis by Application {Flight Planning and Management, Navigation and Guidance, Communication, Others}
- Avionics Software Manufacturers Profiles/Analysis Avionics Software Manufacturing Cost Analysis, Industrial/Supply Chain Analysis, Sourcing Strategy and Downstream Buyers, Marketing
- Strategy by Key Manufacturers/Players, Connected Distributors/Traders Standardization, Regulatory and collaborative initiatives, Industry road map and value chain Market Effect Factors Analysis.

Thanks for reading this article; you can also get individual chapter-wise sections or region-wise report versions like North America, MINT, BRICS, G7, Western / Eastern Europe, or Southeast Asia. Also, we can serve you with customized research services as HTF MI holds a database repository that includes public organizations and Millions of Privately held companies with expertise across various Industry domains.

#### About Author:

HTF Market Intelligence Consulting is uniquely positioned to empower and inspire with research and consulting services to empower businesses with growth strategies, by offering services with extraordinary depth and breadth of thought leadership, research, tools, events, and experience that assist in decision-making.
