

Global Ambulatory Surgical Centers IT Services Market Poised for Growth, Expected to Reach \$15.32 Billion by 2027

The Business Research Company's Ambulatory Surgical Centers IT Services Global Market Report 2023 – Market Size, Trends, And Global Forecast 2023-2032

LANDON, GREATER LONDON, UK, November 16, 2023 /EINPresswire.com/ -- The global

[ambulatory surgical centers IT services market](#) is

“

The market size of the ambulatory surgical centers IT services is expected to grow to \$15.32 billion in 2027 at a CAGR of 19.7%.”

The Business Research Company

anticipated to witness substantial growth, surging from \$6.15 billion in 2022 to \$7.45 billion in 2023, with a robust compound annual growth rate (CAGR) of 21.1%. Despite setbacks from the ongoing Russia-Ukraine war impacting global economic recovery post the COVID-19 pandemic, the market is projected to reach \$15.32 billion by 2027, driven by the escalating burden of chronic diseases in both developing and developed economies.

Escalating Burden of Chronic Diseases Drives Market Growth

The mounting burden of chronic diseases in various economies serves as a significant catalyst propelling the expansion of the ambulatory surgical center IT services market. These IT services are pivotal in catering to surgical procedures, particularly for patients grappling with chronic ailments that necessitate consistent medical attention. The World Health Organization's data from 2020 indicates a foreseen 57% surge in the prevalence of chronic diseases, underscoring the critical role of ambulatory surgical center IT services in addressing the healthcare needs of affected individuals.
