PORTLAND, 5933 NE WIN SIVERS DRIVE, #205, UNITED STATE, November 16, 2023
/EINPresswire.com/ -- The wide applications of [gemstones](#) in jewelry making is due to its chemical properties. Due to increased preference of people towards jewelry and ornaments, the gemstones market has gained traction. Gems being an essential component of the Earth, according to astrologers, it has certain other particles, which enhances the mood of the person wearing it. It is widely used during the marriage ceremonies and festivals, thus, there is a significant increase in its demand. It does not cause irritation to the skin due to its chemical composition. It is permeable and not easily corroded. It has gained traction in both men and women population. Thus, these salient features tend to incline the customers towards gemstones.

Covid-19 Scenario Analysis:

- 1) Due to the outbreak, people are confined to their homes and there is no occurrence of any event of mass gatherings due to fear of infection. This results in less demand for gemstones.
- 2) Due to the supply chain getting affected, it results in the decline in the economy of gemstones market.
