Global Anticoagulants Market Poised for Growth, Expected to Reach $66.32 Billion by 2027

The Business Research Company's Anticoagulants Global Market Report 2023 – Market Size, Trends, And Global Forecast 2023-2032

LANDON, GREATER LANDON, UK, November 16, 2023 /EINPresswire.com/ -- The global anticoagulants market is anticipated to experience significant expansion, ascending from $40.63 billion in 2022 to $44.81 billion in 2023, demonstrating a robust compound annual growth rate (CAGR) of 10.3%. Despite challenges posed by the ongoing Russia-Ukraine war, impeding global economic recovery from the COVID-19 pandemic, the market is projected to expand to $66.32 billion by 2027, driven by the escalating prevalence of cardiovascular diseases worldwide.

> The market size of the anticoagulants is expected to grow to $66.32 billion in 2027 at a CAGR of 10.3%."

Increasing Cardiovascular Diseases Drive Market Growth

The escalating incidence of cardiovascular diseases (CVDs) serves as a pivotal driver propelling the growth of the anticoagulants market in the forthcoming years. CVDs, encompassing a spectrum of heart and blood vessel disorders, represent a leading cause of mortality globally, with a significant impact on low- and middle-income nations. Pharmacotherapeutic interventions such as direct oral anticoagulants play a crucial role in mitigating thrombosis in various cardiovascular conditions. According to the World Health Organization's report in 2021, approximately 17.9 million individuals worldwide succumbed to cardiovascular diseases, constituting 32% of all global deaths, with heart attacks and strokes accounting for 85% of these fatalities. Thus, the escalating burden of cardiovascular diseases fuels the growth of the anticoagulants market.

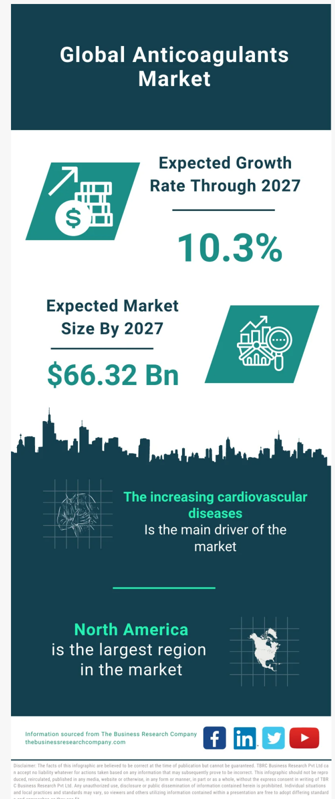
Key Players and Market Trends

Key players in the anticoagulants market include GlaxoSmithKline plc., Pfizer Inc., Sanofi, and

Bayer AG, among others, contributing significantly to the industry's competitive landscape. Ongoing clinical trials investigating anticoagulant treatments for COVID-19 represent a notable trend shaping the market, with institutions such as the National Institutes of Health (NIH) in the USA initiating Phase III clinical trials to assess the efficacy of blood thinners in preventing life-threatening blood clots in COVID-19 patients. These clinical trials underscore the industry's concerted efforts to address the thrombotic complications associated with the viral infection.



Anticoagulants Global Market Report 2023 – Market Size, Trends, And Global Forecast 2023-2032

Segments:

• By Drug Class: Factor Xa Inhibitor, Heparin And LMWH, Vitamin K Antagonist, Other Drug Classes
• By Route Of Administration: Oral Anticoagulant, Injectable Anticoagulant
• By Distribution Channel: Hospital Pharmacy, Retail Pharmacy, Online Pharmacy
• By Application: Venous Thromboembolism, Atrial Fibrillation Or Flutter, Coronary Artery Disease, Other Applications
• By End User: Hospitals, Homecare, Specialty Centers, Other End-Users

Geographical Insights: North America Leading, Growth Prospects in Asia-Pacific

North America emerged as the largest region in the anticoagulants market in 2022, while Asia-Pacific is poised to witness substantial growth in the forecast period. The comprehensive report provides detailed insights into regional dynamics, market trends, and potential growth opportunities.
