

Aircraft Seating Market Size Worth US\$ 9.2 Billion during 2024-2032, CAGR of 4.94% | IMARC Group

BROOKLYN, NEW YORK, USA,
November 16, 2023 /

EINPresswire.com/ -- According to the latest report by IMARC Group, titled "Aircraft Seating Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2024-2032", provides an extensive analysis of the industry, including aircraft seating market share, trends, and growth opportunities. The report also covers competitor and regional analysis and the latest advancements in the global market. The [global aircraft seating market size reached US\\$ 6.0 Billion in 2023](#). Looking forward, IMARC Group expects the market to reach US\$ 9.2 Billion by 2032, exhibiting a growth rate (CAGR) of 4.94% during 2024-2032.

Aircraft Seating Market Overview

Aircraft Seating Market Overview:

Aircraft seating involves the design, production, and distribution of seating systems used in various types of aircraft. These seats are integral components of an aircraft's interior, tailored to ensure passenger comfort while optimizing the available cabin space. A critical characteristic of aircraft seats is their ability to balance comfort with safety; they are rigorously tested for durability and must comply with stringent safety regulations set by aviation authorities.

The working mechanism of these seats often includes advanced features such as adjustable headrests, reclining functions, and in some cases, convertible beds in premium classes. From an engineering standpoint, the properties of aircraft seats include lightweight materials for fuel efficiency, robust design for safety, and ergonomic features for passenger comfort. One of the major advantages of modern aircraft seating is the incorporation of technology, such as in-seat entertainment systems, power outlets, and connectivity options, enhancing the passenger experience.

Aircraft Seating Market Trends:

The global market is primarily driven by the increasing number of commercial flights to cater to the rising global travel demand is a primary driver. Alongside this, the airline industry's focus on enhancing passenger comfort to improve service quality and competitiveness is further propelling market growth. Moreover, the replacement of old aircraft with new, more efficient models necessitates upgraded seating solutions, acting as a significant market stimulant.

Additionally, the growing demand for premium economy seats, offering a balance between comfort and affordability, is expanding the market scope. The emphasis on lightweight and fuel-efficient seating designs, in line with the aviation industry's sustainability goals, is also a vital driver. Furthermore, the expansion of low-cost carriers, which prioritize cost-effective and high-density seating, is bolstering market demand. The introduction of innovative features such as adjustable lighting, temperature control, and enhanced in-seat entertainment systems is attracting airline investments.

The market is further influenced by the increasing need for customization in seating designs to reflect airline branding and passenger preferences. Besides, the rising adoption of advanced materials and technologies to improve the durability and comfort of aircraft seats is shaping market dynamics. The development of smart seats equipped with sensors for health monitoring and personalized passenger experiences is an emerging trend. Lastly, the growing importance of safety and compliance with aviation standards in seat design and manufacturing is another crucial factor driving the market forward.

Key Market Segmentation:

Competitive Landscape With Key Players:

- Acro Aircraft Seating
- Adient Public Limited Company
- Airbus SE
- Autoflug GmbH
- Aviointeriors SPA
- Geven SPA
- Hong Kong Aircraft Engineering
- Jamco Corporation

- Rockwell Collins Inc.
- Recaro Holding GmbH
- Safran Aircraft Engines
- Thompson Aero Seating Limited
- United Technologies Corporation

Market Breakup by Aircraft Type:

- Narrow Body Aircraft
- Widebody Aircraft
- Very Large Aircraft
- Regional Transport Aircraft
- Others

Market Breakup by Seating Class Type:

- Economy Class
- Premium Economy Class
- Business Class
- First Class

Market Breakup by Seat Type:

- 9g
- 16g

Market Breakup by Fit Type:

- Retro Fit
- Line Fit

Market Breakup by Component Type:

- Seat Actuators
- Foams and Fittings
- Others

Market Breakup by End-Use Sector:

- OEM
- Aftermarket
- Maintenance, Repair & Overhaul (MRO)

Market Breakup by Region:

- North America (United States, Canada)
- Europe (Germany, France, United Kingdom, Italy, Spain, Others)
- Asia Pacific (China, Japan, India, Australia, Indonesia, Korea, Others)
- Latin America (Brazil, Mexico, Others)
- Middle East and Africa (United Arab Emirates, Saudi Arabia, Qatar, Iraq, Other)

Key Highlights of the Report:

- Market Performance
- Market Outlook
- Porter's Five Forces Analysis
- Market Drivers and Success Factors
- SWOT Analysis
- Value Chain
- Comprehensive Mapping of the Competitive Landscape
