

Garrett Stewart Sayre Investigates the Afterlife

LAS VEGAS, NEVADA, UNITED STATES, November 16, 2023 /EINPresswire.com/ -- Garrett Stewart Sayre, former top-secret investigator for Naval Intelligence, takes a concerted and deep look into the scientific and historical evidence of life after death in the new hit docufilm 'Ghosts and the Afterlife: A Scientific Investigation.'

Garrett's contributions as an investigator for U.S. Intelligence led to the instigation of many operational strategies that helped the American military to overcome conspiracies against the United States. As a Naval Intelligence officer working with the United States Army Special Forces and Joint Chiefs of Staff Special Warfare Group, Sayre provided information for the NAS Oceana Security/Antiterrorist Report.

Using his military training, Garrett decided to embark on a journey into the realm of the paranormal by searching for scientific proof of the Afterlife, which resulted in the making of the hit docufilm, "Ghosts and the Afterlife: A Scientific Investigation."
