LENX

**Managing Director:** LENX is pleased to announce the appointment of Phil Taylor as the new Managing Director. With a distinguished career over two decades in Navy Special Operations Explosive Ordnance Disposal (EOD), he excelled in initiating and delivering sustained, high-performance, and effective change. Phil led high-performing cross-functional teams, tackling complex challenges in high-pressure environments, and he possessed strong interpersonal and communication skills. Phil served in several critical roles, from being an operations senior manager for an organization with 168 personnel, where he provided crucial guidance on business operations and strategic planning, acting as a liaison between executive leadership, various departments, and global operations. His tenure included roles coordinating logistics for on-time delivery, leading training programs across multiple enterprises, and program management.

He oversaw daily operations, supervised personnel performance, and ensured compliance with policies and training requirements, demonstrating exceptional leadership and operational acumen. His outstanding leadership skills, honed in the Navy, align seamlessly with LENX's mission and values, positioning the company for unprecedented success under his strategic guidance.

Ronald D. Sampson, Jr., Vice President of Business Development -Joining LENX as the Vice President of Business Development is Ronald D. Sampson, Jr., a seasoned professional and distinguished 24-year US Marine Corps (USMC) veteran. With a robust background as an Operations Chief, Ronald has amassed extensive experience in large-organization operational planning and the design and implementation of physical security measures. His leadership extends to guiding cross-functional teams and high-functioning individuals, showcasing a skill set vital for driving business development initiatives at LENX.

Beyond his professional endeavors, Ronald Sampson's commitment to making a positive impact is evident through his volunteerism with the local Court Appointed Special Advocate (CASA) program and active participation in humanitarian operations during overseas deployments. His unique blend of experiences positions him strategically to contribute significantly to the growth and development of LENX. Aligned with the company's vision for the future, Mr. Sampson's strategic prowess and unwavering commitment to excellence make him an invaluable addition to the leadership team.

Ronnie Overman, Strategic Partnerships Manager - Ronnie Overman, another esteemed USMC veteran, assumes a pivotal role as the Strategic Partnerships Manager at LENX. Drawing from his background with the Marine Corps Security Force Regiment, a specialized unit dedicated to security and anti-terrorism operations, and his previous position as a Sheriff Deputy, Ronnie brings a wealth of experience in effective communication, teamwork, and ethical conduct, ensuring public safety and efficient traffic control. His commitment to excellence and adaptability in challenging environments has safeguarded communities.

Marketing Director: Jodi Gallen, appointed as the Marketing Director, brings fresh perspectives to LENX's marketing strategies. Her extensive 20 years of experience in marketing, sales, and startup environments equips her to boost LENX's market presence and engage effectively with clients.

Hussein AbuHassan, The President of LENX, commented on the significant role these new members will play in advancing the company's strategic objectives and reinforcing its position as a leader in the security industry. Their collective expertise and vision are crucial to navigating the dynamic global security landscape. LENX is proud to have these veterans contribute to this critical mission and continues to recruit more veterans every month actively.

To learn more About the Law Enforcement Network (LENX):

LENX, a dynamic firm specializing in cutting-edge technology, focuses on three key areas: AI-

driven weapon detection systems, advanced surveillance drones, and innovative communication systems. Their expertise in AI weapon detection involves developing sophisticated algorithms to identify potential threats, enhancing safety in various environments. Their surveillance drones are designed for efficient stealth and equipped with high-tech sensors and cameras for comprehensive monitoring.

Lastly, LENX's communication systems leverage the latest technology to ensure secure and reliable transmission of information, essential in both civilian and defense applications. This triad of specialties positions LENX at the forefront of technological innovation in security and communication. visit [www.lenx.io](http://www.lenx.io). For more information.
