ChinaAMC introduced the nation's first exchange-traded fund (ETF) in 2004 and since then, the company has launched several innovative index funds. As of September 30, 2023, ChinaAMC is the only mainland mutual fund manager with an equity ETF AUM exceeding RMB 300 billion. It has held the position of the only mainland mutual fund manager with the largest ETF AUM for 18 consecutive years.

ChinaAMC is dedicated to offering investors a comprehensive one-stop shop for ETF product allocation, making the most of ETFs' strength as tools for asset

allocation. With a comprehensive product line that includes over 70 ETFs, the company completely covers mainstream markets like A-shares, Hong Kong equities, and international markets.

China Asset Management Co. Ltd., wins the award of Most Sustainable Asset Management Company China 2023

Since 2004, ChinaAMC has provided investment management and advising services to foreign institutional clients, such as corporates, pension funds, sovereign wealth funds, central banks, and financial institutions.

The goal of ChinaAMC is to give its investors a steady, long-term return. By working diligently and exercising prudent investment stewardship, it supports business expansion and optimises value for all parties involved. The company also has a dedicated global research team that shares resources from the centralized research platform of the company. ChinaAMC has also developed a proprietary framework for its ESG initiatives and has successfully integrated it into its investment process.

ESG lies at the core of ChinaAMC's investment philosophies. In May 2020, the company became the first Chinese asset manager to form an ESG Committee, which is in charge of all ESG-related matters inside the organisation. Its global capital investment team is made up of Sector Analysts who conduct fundamental research with sustainability in mind and Portfolio Managers who select stocks and positions based on internal ESG research and ESG risk alerts. This team also includes ESG analysts who perform ESG research, rate stocks using an internal framework, keep an eye on stock ESG concerns, and communicate with listed firms regarding ESG matters.
