The meat segment to maintain its leadership status throughout the forecast period

Based on application, the meat segment held the highest market share in 2020, accounting for more than two-fifths of the global liquid smoke market, and is estimated to maintain its leadership status throughout the forecast period. This is attributed to the rise in the consumption of meat products all around the world. Moreover, the sauces/marinades segment is projected to manifest the highest CAGR of 6.6% from 2021 to 2030, owing to changes in taste and preference of consumers that led to adoption of different flavors.

The supermarket/hypermarket segment to maintain its lead position during the forecast period

Based on distribution channel, the supermarket/hypermarket segment accounted for the largest share in 2020, contributing to more than one-third of the global liquid smoke market, and is projected to maintain its lead position during the forecast period. This is owing to increase in adoption of supermarket and hypermarket as shopping centers in both the mature and emerging markets. However, the e-commerce segment is expected to portray the largest CAGR of 6.7% from 2021 to 2030. This is attributed to element of convenience and the option to choose and compare products from different brands.

Europe, followed by North America to maintain its dominance by 2030

Based on region, Europe, followed by North America, held the highest market share in terms of revenue in 2020, accounting for more than one-third of the global liquid smoke market. However, the Asia-Pacific region is expected to witness the fastest CAGR of 7.1% from 2021 to 2030. This is attributed to rise in income level, changing food consumption habits, and presence of large consumer base for the food products.
