Aglocell Announces BandwidthX Acquisition

Expanding Its Footprint in the Telecommunications Industry

WARRENVILLE, ILLINOIS, UNITED STATES, November 17, 2023 /EINPresswire.com/ -- Aglocell, a leading global provider of telecommunications solutions, is thrilled to announce the successful acquisition of the mobile network optimization technologies of BandwidthX. This strategic move will significantly enhance Aglocell's capabilities and further solidify its position as a key player in the telecommunications industry.

> "
> push the boundaries of innovation, delivering unprecedented solutions that will reshape the telecommunications industry and unlock new possibilities for enhanced connectivity and network performance.""
>
> *Pertti Visuri*

With this acquisition, Aglocell gains access to BandwidthX's cutting-edge technology and innovative solutions, which will enable Aglocell to deliver even greater value to its customers. BandwidthX has built a reputation for its advanced network optimization algorithms and novel cloud software solutions, providing intelligent and efficient management of wireless connectivity.

The integration of BandwidthX's expertise and products into Aglocell's existing portfolio will unlock new possibilities for network optimization, spectrum management, and bandwidth allocation. This acquisition aligns with Aglocell's long-term vision of delivering seamless connectivity and superior network performance to its customers, enabling them to navigate the ever-increasing demands of the digital age.

"We are thrilled to welcome BandwidthX to the Aglocell family," said Bruce Peterson, CEO of Aglocell. "Their deep knowledge and experience in wireless network optimization will be instrumental in enhancing our capabilities and allowing us to offer unparalleled solutions to our customers. We are excited about the synergies between our companies and the opportunities this acquisition presents for driving innovation and meeting the evolving needs of the telecommunications industry."

"BandwidthX is delighted to join forces with Aglocell and embark on this exciting new chapter," said Pertti Visuri, Founder and CEO of BandwidthX. "The agreement with Aglocell represents a great opportunity for our field-proven solutions to go to market as a part of a larger system that

addresses today's needs of mobile network operators. This will push the boundaries of innovation, delivering unprecedented solutions that will reshape the telecommunications industry and unlock new possibilities for enhanced connectivity and network performance."

Combining the strengths of Aglocell and BandwidthX will accelerate the development of groundbreaking solutions, creating new possibilities for optimizing network performance and addressing the challenges of an increasingly connected world.

ENDS

About Aglocell:
Aglocell is a global leader in telecommunications, providing comprehensive solutions in wireless connectivity, network optimization, and digital transformation. We help mobile operators sweat their assets and improve network performance with AI-driven algorithms.

With a strong focus on innovation and customer-centricity, Aglocell strives to deliver seamless, reliable, and high-performance telecommunications solutions to increase performance and reduce capex expansion costs for wireless carriers worldwide.

About BandwidthX:
BandwidthX is a technology company specializing in wireless network optimization and innovative cloud software solutions that extend the capacity and coverage of data networks. Leveraging advanced algorithms and industry expertise, BandwidthX provides intelligent and efficient management of wireless connectivity, enabling businesses to enhance their network performance and deliver exceptional user experiences.
