

An American is Diagnosed with Diabetes Every 23 Seconds

ARLINGTON, VIRGINIA, UNITED STATES,
November 21, 2023 /

EINPresswire.com/ -- More than [37 million Americans live with diabetes](#) and 1 in 5 are unaware that they have it. As the 7th leading cause of death in America, it's important to know and understand the risks.

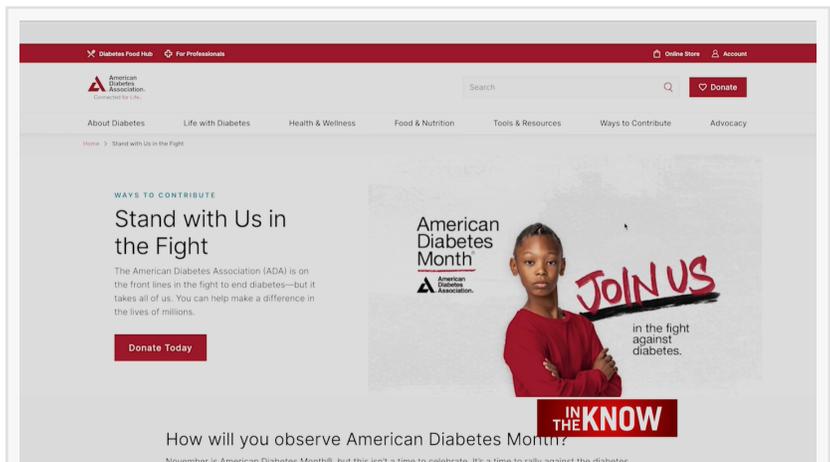

Throughout American Diabetes Month in November, the [American Diabetes Association](#) shares the experiences of living with diabetes, resources on how to take action, and ways to support the mission. One can even discover their own risk level by taking the Diabetes Risk Test.

CEO of the American Diabetes Association, Chuck Henderson, discusses the common symptoms and risk factors of diabetes and explains the financial impact of the most expensive chronic disease in the country.
