[Driving Forces: Unleashing Agility in IT Infrastructure](#)

The composable infrastructure market's growth is propelled by the escalating demand for agile IT infrastructure. Organizations are increasingly embracing agile IT infrastructure to foster business growth, cut costs, and enhance team performance. Composable infrastructure plays a pivotal role in meeting this demand by creating agile IT environments within enterprises. It optimizes application performance, reduces underutilization and overprovisioning, and fosters a more agile and cost-effective data center. The surge in agile adoption is evident, with 71% of companies employing agile approaches and 60% experiencing profit growth after its implementation.

Key players shaping the composable infrastructure market include Lenovo, One Stop Systems Inc., Liquid Inc., Inspur, Western Digital Corporation, and Hewlett Packard Enterprise Development LP. The market is witnessing a trend of technological advancement, with companies integrating advanced technologies like SSD technology in storage hardware. For instance, Inspur Information introduced a new generation of Enterprise NVMe SSDs, enhancing flash memory lifespans and achieving 1.6 million IOPS per drive via PCIe 4.0 ultra-wide channel and ZNS storage.

In 2022, North America emerged as the largest region in the composable infrastructure market, with Asia-Pacific anticipated to be the fastest-growing region in the forecast period. The geographical coverage encompasses Asia-Pacific, Western Europe, Eastern Europe, North America, South America, the Middle East, and Africa.
