The Author David Catherman

The most mentioned cities in the Bible are #1 - Jerusalem and #2 - Babylon. Babylon is the primary city during the Tribulation, and Jerusalem is the primary city during the Millennium (1000 years). These two cities dominate the culture of the world in the end times. In scripture, there are two cities that were the centers of an unseen war raging between the Kingdom of God and the Kingdom of Satan: Jerusalem and Babylon. Soon, we will see Iraq and the Islamic nations rebuilding Babylon. We will know the end times are here."

For many, the notion of the end times remains unexplored, with the belief that Christians will not actively participate. However, the Bible is rich with insights about the end times, and it is vital

Message from the author:

I actually have several books on Amazon, check them out since they are all Bible study books. This one has required the most research since verses for this period are scattered throughout Scripture and I needed to pull them all together. There are also many other books written about this time, but it is hard to give a good description of what happens since not every reference is the same. Many are written from different points of view so pulling them together is not easy. I have done the best I could with the few years that were given to me.
