

2024 World Congress on Gastrointestinal Cancer announces internationally renowned Scientific Committee

Committee will oversee abstract selection and the development of a comprehensive programme covering the most advanced approaches in patient diagnosis and care.

MALVERN, PENNSYLVANIA, UNITED STATES, November 28, 2023 /EINPresswire.com/ -- HMP Global, the leading healthcare events and education company, today announced Scientific Committee members for the 2024 World Congress on Gastrointestinal Cancer, the premier annual gathering for dynamic education and exchange among GI oncology clinicians and researchers.

For more than two decades, World GI Congress has been the forum for numerous scientific breakthroughs, with hundreds of practice-changing, late-breaking abstracts announced in Barcelona.

The 2024 World GI Congress will be held 3-6 July 2024 at the Centre de Convencions Internacional de Barcelona. The 25th Congress held earlier this year brought together more than 3,000 oncology, pathology, and hepatology clinicians, surgeons, researchers, and experts from more than 100 countries to share pioneering research and discuss state-of-the-art best practices in treating patients with GI cancers.

Composed of some of the world's leading experts in GI oncology, Scientific Committee members oversee the development of a comprehensive programme ensuring participants learn and discuss the most advanced approaches in patient diagnosis and care. Committee members also select oral and late-breaking abstracts that will be presented at World GI Congress.

"World GI Congress is the established global leader in groundbreaking GI oncology innovation, and our 2024 Scientific Committee members bring a wealth of knowledge and experience to their roles," said Dan Lowrie, President, Oncology, Gastroenterology & Autoimmune, HMP Education. "All of these committee members are highly respected for their expertise and work

that has positively impacted the quality of care for GI cancer patients throughout the world.”

For more than two decades, World GI Congress has been the forum for numerous scientific breakthroughs, with hundreds of practice-changing, late-breaking abstracts announced in Barcelona.
