

Neonode joins EVONOMY's Ecosystem, enhances Driver & In-cabin Monitoring capabilities available to Auto & Mobility OEMs

Neonode's MultiSensing® solution for In-Cabin applications will be featured in Economy's Ecosystem

DETROIT, MI, USA, November 29, 2023 /EINPresswire.com/ -- [EVONOMY](#) Group, a leader in Technical & Commercial services for Autonomous Technologies, Connectivity, Electrification, and Software, and [Neonode Inc.](#), a leading provider of Sensing & Software solutions, announced that Neonode's MultiSensing solution will be featured in the Ecosystem offered by the Economy Brand.

By joining the Economy Ecosystem, the applications available to OEMs for in-cabin use will be further diversified, as Neonode's MultiSensing platform can perfect Driver & In-cabin Monitoring System (DMS/IMS) performance while enabling other use cases such as Gesture Control, Smart Seating, and AR-HUD (Augmented Reality Heads-Up Display) control. The MultiSensing platform is offered with a customizable Software Framework which streamlines the ability for OEMs to easily fine-tune and perfect bespoke features that optimize end-customer value and strengthen their brands.

“

We are happy to start this cooperation with Economy which will help us accelerate our efforts to connect and engage with OEMs and Tier-1s”

Dr. Urban Forssell, CEO of Neonode

"Economy is excited to engage with Neonode and highlight its MultiSensing® platform to OEMs which are rapidly adopting in-cabin perception solutions to improve occupant safety and provide a more connected experience", said Anthony R. Giesey, SVP & Head of Brands for EVONOMY Group. "The MultiSensing platform's diverse

capability enables OEMs to accelerate feature development while simplifying the process of customizing and/or synchronizing the user experience across OEM brands."

"We are happy to start this cooperation with Economy which will help us accelerate our efforts to connect and engage with OEMs and Tier-1s," stated Dr. Urban Forssell, CEO of Neonode. "We are very proud of our MultiSensing solution and see several different use cases for this technology in both light and commercial vehicles as well as off-highway and industrial applications."
