Suggestions from the US Navy Veterans Mesothelioma Advocate for Veterans with mesothelioma nationwide on how to increase potential financial compensation:

"Do you recall the specifics of how you were exposed to asbestos at work, in the military or both- and when this exposure occurred? This is incredibly important information.

"Do you recall the names of shipmates-coworkers who might have witnessed your exposure to asbestos?

"Did you have more than one job in the navy-armed forces where you might have been exposed to asbestos?

"Do your medical records include a biopsy that confirms the mesothelioma or asbestos exposure

lung cancer?"

"Has your loved one's doctor told you that mesothelioma is a distinct possibility-but because they are so sick-weak-a biopsy to confirm the mesothelioma is not possible? If this is your loved one, please call us at 866-714-6466."

Important Note: "If your loved one died from confirmed mesothelioma in the United States within the last two years and the compensation process was never begun because of COVID or other reasons-please call us at 866-714-6466. We would be honored to help." <https://USNavyMesothelioma.Com>
